Personnaliser l'interface À propos • Mentions légales • Contacts Download Smart Pro IPTV Apk for Android smartphones and tablets to watch live TV channels, radio stations, movies, TV series and other such entertainments by providing the program for free without spending a penny. About the app This is an Android app developed and offered by HD PRODUÇÕES for Android users who want to stream live TV channels, radio stations, movies, TV series and other such entertainment by providing the program for free with a penny. It's one of the best free and secure sources to stream thousands of entertainment programs on your smartphone and tablet. You can find several such apps online that provide you with live streaming, but some of them are paid for, and some of them have low quality to watch your favorite program. But this app I'm talking about here is a free entertainment app with incredible quality. All content available on this app is above 720p quality so you have the best experience to watch your favorite program. The best thing about it is not country specific has almost all channels from around the world. so there's no way you're missing any channel. You can watch TV channels of different categories such as music, movies, religion, weather, sports, news, cooking, documentaries, children, adults, health and more like this on this individual app. Information about Smart Pro IPTV Apk Name Smart Pro IPTV Versionv1.0Size65 MBDeveloperHD PRODUÇÕES File TypeApkOperating SystemAndroid 4.0+PriceFree All content available on this application is distributed in different categories so that people will easily find their favorite program. There are 6 to 7 main categories and they are divided into different subcategories by country, language and many such things. So don't miss this amazing app just grab it. This app has a built-in player to play different programs. If you are not satisfied with the built-in players, then you have the option to use external players because it easily supports all external players. Most of the content available in this app contains built-in subtitles so people can easily understand the video. This app will also provide you with a platform to change your language if you don't understand it. has a built-in dynamic language switching option that easily changes the video language in such as English, Spanish and many other such languages. These types of features are not available on live streaming apps on the Internet. Screenshots smart pro iptv apk If you want to stream your favorite TV channel and your favorite content in HD quality, then you need to download this incredible app from any third-party website. You can also download it from the direct download button given at the end of the article and install it on your smartphone. While installing an app provides all permissions and also provides an unknown source from security settings. To use this amazing live streaming app, you need an Android smartphone or tablet. It is also compatible with other devices such as Fire Stick, Fire TV, Android TV and many more such devices. This app needs a convenient internet connection to view all content without buffering or lag. Therefore, you need to organize an internet connection to use this application. You can also try another app MRZ IPTV Apk and Pinguim TV Apk for Android smartphones and tablets. Conclusion, Smart Pro IPTV Apk is an Android app specifically designed for people who want flexible and affordable unlimited entertainment for free. If you want unlimited entertainment for free, download this app and enjoy watching your favorite program. Share your experience with family and friends. If you like this app, please rate this article and share it on different social networks so that more people benefit from this app and if you want to stay up to date with the latest third-party apps and games, subscribe to our site using a valid email address. Direct Download Link IPTV Pro — прилоение для просмотра IP-телевидения на медиа-приставках Android TV. Имеется встроенный плеер, но можно также выбрать и свой. 1999- 1999- 19999, and the medaria-платформа Ace Stream Media запускается автотии. It's not like i'm going to be able to do that, but i'm not going to be able to do that. Также в программе реализовано автоскрытие боковой панели и переключение каналов с пульта стрелками вправо-влево. It's a big part of it. And that's what you're going to do, jelly bean 4.1 Jelly Bean. Версия без рекламы. Image caption The IPTV Pro has been accused of sexual misogyny streams with udp-proxy channel mapping as a network, A list or mosaic of support for electronic TV guide EPG in .xmltv and .jtv formats (in .zip-archive only) automatically reconnecting to the streaming server, when the connection is interrupted by the quick launch of the application when downloading extended media set-top settings and playlist history for media settings There will be a back light of a dedicated channel and several more useful add-ons. The pro version of the app has no advertising, the playlist history is limited to 250 items, and there is the option to automatically start the program when downloading the device (which is useful for TV boxes). Download: IPTV Pro 5.4.12 armeabi-v7a (20.29 Mb) Download: IRTV Pro 5.4.12 arm64-v8a (21.15 Mb) Version 5.4.12 of 19. 2020 improved interface for devices with screen cutouts corrected spontaneous restart of Chromecast on some devices Added Arabic localization bug correction and stability categories: iptv Online TV Main section: IPTV Smarters Pro applications are one of the most popular ip-TV players. It can maintain multiple playlists and EPG sources. There is a separate section for selected channels and parental control. This player also has Chromecast support and built-in subtitles. Can display the entire electronic TV guide in a week. The app has an English interface and also requires an Android version installed on the device no lower than 4.2 Jelly Bean. Ad-free version. IPTV Smarters Pro full support for Xstream ipTV API Download playlists in the M3u file or URL streaming movies, HD TV series and television without hovering electronic TV guide EPG and built-in parental control player for ip-tv viewing, and the ability to select an optimization app under media set-top boxes Android TV, FireStick and Nvidia Shield dynamic switch supported languages support the built-in subtitles of the main formats in IPTVS Smarter Does not contain built-in playlists. Fine-tuned telehide and time zones are available. You can add your own player to play (or a separate player for each category). There is also a selection of set-top box for online playback. Download: IRTV Smarters Pro 2.2.2.4 Build 75 (83.25 Mb) Version 2.2.2.4 Build 75 of October 21, 2020 Improving Cast Function Fix Small category error: iptv Main section of network television: Apps for apps
