When we bought it, we intended to get a full size bed conversion kit, but didn't actually. It was a big mistake because it looks like Lahovi making a Bonavita bed. Conversion kits are sold out everywhere I've seen them. Now, when it was a big criterion for our chosen crib, I think we could have a crib that we would never be able to convert to. Does anyone know if there are other parts available for bonavita cribs and if there are universal conversion kits? I didn't have much luck searching.
