The description of the Casing is for the AirSOFT Eagle Desert only and will not fit the actual agreement. Check out our store for casings that fit real firearms. Our 'Demon' series casing is designed for competitive shooters. It's engineered to be faster, more adjustable, and easier to use than most other casings on the market. If speed is your objective, you won't find a better casing. These covers are suitable for anyone who wants to keep their weapons safe and secure on their hips! It will work great to shoot competition, firearms training, open carry-on, and LEO/military use, or even as something to keep your weapons nearby on a relaxing day at the range. Features of this casing:Very rugged Black .080 Carbon Fiber patterned retention of materialAdjustable kydex (loose or tightening screw 2 under the trigger controller to adjust retention)Cant adjustable (just loosening 4 screws in the clip, turn the clip into the position you want, and strain the screws)Adjust for any belt size (rearrange the narrow pieces inside the Tek-Lok to fit any size belt from .5 to 2.25)Made to adjust the Marui spec airsoft Desert Eagles, including WE Tech, KWC, and Tokyo Marui, if you're not sure if you're going to design latch molded to the gun with the desired one and convince 'click'Low cut for a short sleeve long sweep to help re-casing and keep clothes from snaggingOnly the best hardware can be found in my holster . Blade-Tech Tek-Lok clips I chose are artwork! Thank you for considering this product from GMI Safe Holsters. Easy. Strong. *Please allow business day construction time 5-10. Keep in mind our products are made-for-order, which is why waiting is extended, but it also allows us to manage a larger selection of products Learn more about this item Pro Series Desert Eagle Holsters has been designed from the ground up by us internally and strictly tested. Pro Series Desert Eagle Holsters is certified to suit the WE (both normal variants and L6), KWC, Cybergun, Tokyo Marui and guard (Body Kit) desert Eagles.
