Kategorien Guten Abend liebes Forum, ich hab mal ne frage: bei Youtube gibts viele Typen die Guitar Hero 3 aufm PC spielen, aber mit anderen Liedern bzw, mehr Liedern als ich. Hab mir schon einiges durchgelesen runtergeladen usw. aber hat nicht geklappt. Kann mit bitte jemand helfen? Wo lade ich runter ? Wie fäße ich diese ein? Has Muss been weaded? Vlenen Dank p.s. mein Spiel ist Deutsch v.1.31 (die neueste) mfg yodaforscher 0 Edit Share Custom Songs is a fan term used to describe songs created by the community that is not part of the official setlists of the Guitar Hero series. Users create their own note charts to match songs, created in unofficial third-party software, then insert these custom songs into their game. Currently, there are only tools to insert songs into these games: Guitar Hero (PS2) Guitar Hero II (PS2) Guitar Hero III: Legends of Rock (PC, Wii, PS2) Guitar Hero World Tour (PC, Wii) Previously, customs were limited to GHTunes. Note: Graphics editing software[edit - edit source] There are several unofficial third-party software used to classify songs for Guitar Hero games, especially PC Guitar Hero games (but they can work with consoles using other third-party software), including, but not limited to: External Links[edit -edit source] Hacking Songs Community content is available in CC-BY-SA unless otherwise specified.
