Noun and pronoun worksheets 5th grade

A pronoun is a word that is used instead of a name. Common pronouns include: (he, him, them, them, ours, me, etc.). It is important to learn how to use the pronoun correctly when writing sentences. Pronouns take the place of the corresponding noun. They usually occur after the correct noun is claimed, so the reader doesn't need to hear the correct noun several times. There are many different types of pronouns in the English language. The regular pronouns worksheets are free to download and readily available in PDF format.
