## Where is the delete button on a chromebook

To delete a character after the cursor on your Chromebook, press ALT+ BACKSPACE, that's all the trick! Hey Chromebook fans, I have a real quick one for you: the keyboard shortcut for the equivalent of the DELETE key in the Chromebook is ALT+ BACKSPACE, the difference between DELETE and BACKSPACE is quite simple, BACKSPACE removes the character immediately before the cursor and removes the minus character immediately after the cursor. It's something I bring with me when I travel and sit around on the couch, edit or write a long email, it's second only to my wife. MacBook Air (and much cheaper heckuva) What you lose when you run down a laptop into a 10-inch model factor is a real estate keyboard with a little cluster of keys in the middle, including inserts, houses, end, and more. Delete, page up and page down ALT+ BACKSPACE keyboard shortcuts replace DELETE keys, and now that I know about it, I use it quite often. While we're at it, I may as well share some other useful ChromebookALT+ BACKSPACE keyboard shortcuts, as I mentioned is to delete the next letter after the cursor. To type SCROLL LOCK... just kidding, no scroll lock in Chromebook scroll lock, what can i do? Does anyone know? Need help with keyboard shortcuts or other Chromebook tips? Ask about it in the comments and we'll see if we have an answer. If you recently purchased a Chromebook and it's surprising why the keyboard doesn't have a Delete button and you're missing badly, here's a good tip for you, even if the Chromebook doesn't have a dedicated Delete key, you can use a predefined set of keys to act as a delete button. You can use the Alt + Backspace key to run negative, which means that by pressing the 'Alt' button and pressing the Backspace button, it will work as a major negative. Additionally, hold down the Control key with these keys to delete words instead of individual letters. Therefore, Ctrl + Alt + Backspace = Delete words, even if the user maps the keyboard keys on the Chromebook again by going to Settings &t; Device Settings &t; Keyboard Settings, but only with the Ctrl and Alt search keys. For example, you can map the 'Search' key on your new Chromebook to the missing 'Caps Lock' key here. Article We'll learn how to turn Caps Lock on or off and turn the search key on Caps Lock. This notification will be in the notification area as long as Caps Lock is turned on. Turn off Caps Lock to turn On Caps Lock on chromebook. If you want a permanent Caps Lock button, you can change the search key to the Caps Lock button. Need detailed instructions to do this? Please refer to the keyboard section in our Chromebook Setup Guide. Delete chromebook keyboard key, there is no delete key as well. Instead, you can use the alt+BACKSPACE keyboard shortcut. Delete previous words like keyboard shortcuts and other tips to get started with your Chromebook? Check out our getting started guide here. When you're new to chromebooks, even doing something simple, like finding and deleting unwanted files, can feel like a boring task. However, before you delete anything but note that the Chromebook does not have trash or anywhere else that can retrieve deleted files no matter how, you should back up your files to Google Drive in case you end up needing them later. See the products mentioned in this article: HP Chromebook (from \$249 Best Buy), How to delete files on Chromebook1, click on the point at the lower left corner of the screen, then click up the carrot to see all your apps. Click the dot followed by the up arrow. 2. Select File, click file in the middle of the top 3. Find the file you want to delete.
