Home Check out our latest & best Idle Heroes Tier List of 2019, Idle Heroes Guide with amazing stats & events details. Idle Heroes is an addictive mobile RPG game with amazing graphics and characters. This game was developed by dh games, which is known for creating an addictive game as an ode to heroes. Idle heroes are powered by AI technology that helps save time between battles. AI calculates the power level of heroes during Player vs Player or Player vs. Environment and decides the winners. In this game it is your task to select the appropriate combination of heroes and care for them for battle. As the game progresses, you need to unlock the heroes and upgrade your skills to win the battle. More than 200+ heroes are divided between 6 groups, i.e. shade, fortress, anoules, forest, dark and light. Each group has its own definitions and limitations that can increase or decrease the power level of heroes. For example, if you create the perfect combination of these group heroes according to the situation, the chances of winning the battle will increase. As the game progresses, it is a little hard to make the best flawless heroes tier list because the requirement changes at different stages of the game. The list of heroes is subjective and depends on the individual thinking and his desires. Some experiences are better while synchronizing different heroes, but some don't. Here we have created the best flawless list of heroes and a guide to characters to start with. Reclamation: We have only selected those heroes who have the ability to take your game over 10 stars. The ranking of heroes may be higher or lower than the other, this does not mean that in all situations it is better or worse. To build a winning team, you need to focus on combinations rather than scales or character levels. Because here the skills of heroes can enhance each other's skills. Best Idle Heroes Tier List This Idle Heroes Tier list contains all the required information's heroes and will be used to build the best possible teams to beat any team. We created 2 list, one for PvE (Player vs Environment) Heroes and one for PvP (Player vs Player) Heroes. In the guide to flawless heroes, we explained with our strengths and weaknesses the ability and skills of each meta. Shadow Faction The best heroes for shadow factions are Aidan, Horus and Jahra. They have strong control over the crowd or usually harm the vendors. It is often used in rainbow, rubble or auraless teams. Aidan Aidan provides a deadly burst of damage and currently has a better throw compared to Horus. If you combine it with other heroes of flawless armor, then it can damage up to 2 million on each hero of the opponents. Benefits: Guaranteed burst damage and even gain benefits from your arrangement for rabbits. Cons: You can't put Aidan in any random team and he's a reactive hero, so the results can vary depending on the two teams. Horus Horus provides flexible construction and counts as a very versatile hero. Speed is a weak point, because if your ally is dead, which only let the horus block the attack, it cannot attack due to lack of speed. Strengths: He can provide you with incredible damage if he has survived 3 rounds and can deal with the real damage to the block. Cons: Lack of speed and no impact on round 1. Jahra Jahra is the same as horus, but he has more control over the crowd and bursts the damage. Advantages: Severe injury and unomased CC. Cons: Has a low HP and has no effect on round 1. Fortress Faction Best Heroes fortress faction are Valentino, Emily & Ormus. They usually have a support section. It is often used for rainbow, atoning or auralous auralous Valentino Can stun opponents in random order, giving a series of damage to each opponent's team. Benefits: It has excellent CC and a stunning immune system. It offers surprising damage. Cons: One of the main versus is to choose between CC or damage. Emily Emily has a strong armor ability that can be easily triggered in round one and is amazing at the end of the game. She makes a balance between the teams and a big influence on the battle. Benefits: This can protect you when CCed gets and rabbits can deal with tons of damage if both of Emily's skills are triggered. She's a slow and reactive hero. If she gets shot, she can't pull the trigger passively. Ormus Ormus is a defensive hero unlike Emily. Compared to Valentine and Emily, it ranks lower because in the current meta game, offense is more essential than defense. Benefits: Provides a lot of healing. It's a reactive hero and drugs that are only used after heroes take harm. Abyss Faction The best heroes for the abyss of the fac is Kroos. Usually jack are all trades with factions. It is often used for rainbow, ruin or auraless teams. Kroos Kroos is one of the best and excellent PvP heroes with MAX HP injuries and heals. Strengths: You can free 100 energy for a randow ally. This can allow you to dealx1.5 more damage to weakened heroes. Cons: Slow is compared to other CC heroes. Forest faction The best heroes for the forest faction are Valkyrie. It is often used for rainbow, atonic, full forest or aural. Valkyrie Her bunch is the best PvP synergy in idle heroes. It's full of all the essentials that can really hurt your opponents. Advantages: This cabin reduces the attack by 12% and can steal 15% attack. It can heal and deal with the damage when CCed opponents. Cons: Is slow and susceptible to CC. Dark Faction The best heroes for forest facing are Mihm & Aspen. It has some amazing damage vendors and excellent CC. It is often used for rainbow, GvE, dark or auraless teams. Mihm Mihm is the ultimate and excellent PvP racist hero. It can cause a lot of damage to a single death is great. If you have options for selecting 2 Mihms in your team, then definitely choose Mihms because it is all you need to end the game. Pros: Immune to CC, and injuries can be reduced to 30%. Cons: He is a reactive hero as well as a mag. Aspen Aspen is regarded as one of the great timeless heroes, but he is still behind similar mihm and aida. He is a monster in long fights and can use the greatest potentials from her stack. Advantages: Has a crazy damage to the seller and a unique CC to stop the abilities of opponents. Cons: Slow to follow in combat. Light Faction The best heroes for light faction are Aida, Belrain and Michelle. It is often used in rainbow, GvE, salvation, full light or auraless teams. Aida If you are looking for the strongest and fastest speedy heroes, then go after Aida. It has amazing and active knowledge has 100% armor fracture. In fact, Aida is with excellent abilities. Benefits: It has guaranteed damage and real damage based on HP. Cons: His last passive will not work if CCed on a lot and is a mag. Belrain Belrain is a supporting type of flawless hero and the perfect mix of Ormus and Emily. Pros: He has offensive and defensive support. She's also known for her great hero suicide. Cons: Very slowly and heals after heroes takes damage. Michelle Michelle maintains consistency throughout the battle that makes her shock. She's fast and has a chance to stun her opponents. Strengths: Immune to CC and can help you win the game. Cons: Bad vs Lucky candy bar. Idle Heroes Events Idle Heroes Events helps players to get valuable or mysterious objects and top heroes.
