## Brookings high school phone number

Page 2 Dec 16 Jan 20 Feb 17 Feb 18 108 Graduates in Class 2018 Our district has increased the graduation rate from the 60th percentile to more than the 80th percentile in recent years, above the state average. We work to keep our students on track to graduate at all grade levels and have intervention programs to help students who are late. 3 types of professional certificates offered bhHS students can obtain an allied health certificate in partnership with SWOCC, CompTIA Professional Information Technology Certificates, and numerous professional software certificates of Graphic and Digital Art. We have also re-added numerous CTE courses, such as welding and construction shops in recent years to provide more practical vocational training opportunities. 1,717 dual credits earned in 2017-18 Last year, 184 of our students completed college credits through high school classes. Southern Oregon University (SOU), Oregon Institute of Technology (ILO) and South Western Oregon Community College (SOCC) to provide these dual credit opportunities. \$4.5 Million in Seismic Security Improvements Our district earned three \$1.5 million in Business Oregon grants to tailor elementary, middle, and high school for safety in the event of a major earthquake. Kalmiopsis Elementary School and Azalea High School are complete. Brookings-Harbor High School is scheduled for construction as early as the summer of 2019. Learn more about involving Homes for Rent and Sale near this school This school is ranked below average as a school compared to other schools in Oregon. Students here have about the average measures of college readiness, ... Plus this school has below-average results in how well it's serving underprivileged students, and students perform below average on state tests. In this school, which refers to large disparities in absenteeism rates. Test scores at this school fall below the state average. This suggests that most students at this school may not be performing at grade level. Parenting tip Do you notice anything missing or confusing? Disadvantaged equity students at this school may be falling behind other students in the state, and this school can have significant gaps in accomplishments. Educate with excellence... Inspiring Life Tutorials We are now located in www.brookings.k12.sd.us Update 7/29/2020 - Message from Superintendent Brookings-Harbor School District Families, Ayer, Oregon Governor Kate Brown announced a new set of metrics that will determine when schools can safely reopen their buildings to return to in-person learning. Key metrics are based on both state-level infection rates and positive test rates, as well as infection rates at the local county level and positive test rates. Link to detailed metrics published 7/28/20. Target metrics should be reached for 3 consecutive weeks across the state and within Curry County: 10 or fewer active cases per 100,000 people Positive test rate of 5% or less In the last three weeks, Oregon has recorded rates of 45.9-57.1 active cases per 100,000 people, and positive test rates ranging from 5.1 to 5.9 percent. These do not meet the standard set for reopening. Here's a detailed look at curry County numbers from the past three weeks: 7/5: 4.44 active cases/100,000 people; 0.0% positive test rate 7/12: 4.4/100,000; 6.3% positive test rate 7/19: 13.1/100,000; 0.0% positive test rate Link to county document by county. Locally, Curry County is close to the range of metrics to allow us to open up in person, however, state-level rates are not here at this time. If Oregon numbers improve and stabilize, and Curry County stays at or below current levels, there is a chance that we can safely open in person as planned with half of the students attending a morning session and the other half in an afternoon session. However, we may need to open the school with online learning. Exception K-3 There is also an exception in the new guide that allows districts to open K-3 grades in person if county-level metrics are met for 3 consecutive weeks. Less than 30 cases per 100,000 people Test positivity rate of 5% or less We will continue our planning to build schedules and develop processes and protocols for in-person operation, as well as planning the complete online instruction as well. In the coming we will share more details of what our offers will look like in person and online. The district has made significant investments in technology to ensure that all students have a device and access to online learning platforms and resources. We are taking the lessons learned from spring and are committed to quality instruction and opportunities opportunities of the format. The district will continue to provide services for students on IEPs, those with 504 plans, and other established programs such as English Language Learners, Indian Education, etc. We are developing programs to integrate these supports into all of our instructional delivery approaches into the Distance Learning model. As we have seen throughout this summer, things can and do change quickly. We are committed to keeping you informed as these changes occur. Our guiding principles as we look forward to this fall are student safety; equity; student engagement and connection; and student learning. As our plans continue to develop and as information and guidelines are released, we will continue to post this information on our website and specifically on our 2020 Fall Planning webpage. Please feel free to email me, call the district office to set up an appointment, or join me for a walking conversation on the BHHS track (the next one is scheduled for noon Thursday, July 30). We look forward to reconnecting with you soon. David Marshall, Superintendent, Brookings-Harbor School District——Message from Superintendent July 29, 2020 Families of the Brookings-Harbor School District, Yesterday, Oregon Governor Kate Brown, announced a new set of metrics that will determine when schools can safely reopen their buildings to return to in-person learning. Key metrics are based on both state-level infection, positive test rates, as well as positive and local county-level infection rates. Elace to details -&gt; Link to detailed metrics released 7/28/20. Target metrics should be achieved for 3 consecutive weeks across the state and within Curry County: \* 10 or fewer active cases per 100,000 people \* Positive test rate of 5% or less in the last three weeks, Oregon has recorded rates of 45.9-57.1 active cases per 100,000 people, and positive test rates ranging from 5.1% to 5.9 percent. These do not meet the standard set for reopening. Below are the Curry County numbers from the last three weeks: 7/5: 4.44 active cases / 100,000 people; 0.0% positive test rate 7/12: 4.4 / 100,000; 6.3% positive test rate 7/19: 13.1 / 100,000; 0.0% positive test rate Locally, Curry County is close to the range of metrics that allows us to open in person, however, rates at the state level are not at this time. If Oregon numbers improve and stabilize, and Curry County stays at or below current levels, there is a chance that we can safely open in person as planned with half of the students attending one morning session and the other half in an afternoon session. Without we're likely to have to open the school with online learning. Exception K-3 There is also an exception in the new guide that allows districts to open K-3 grades in person if county-level metrics are met for 3 consecutive weeks. Less than 30 cases per 100,000 people Positivity Rate Test of 5% or less We will continue our planning to create schedules and develop processes and protocols for in-person operation, as well as planning the complete online instruction as well. In the coming weeks, we'll share more details about what our in-person and online offers will look like. The district has made significant investments in technology to ensure that all students have a device and access to online learning platforms and resources. We are taking the lessons learned from spring and are committed to instruction and quality opportunities, regardless of format. The district will continue to provide services for students with IEPs, those with 504 plans, and other established programs, such as English Language Students, Indian Education, etc. We are developing programs to integrate these supports into all of our instruction delivery approaches. in the distance learning model.
