(ha) (* From the bottom, it is written in hidden based on a picture.) (* To improve readability, we randomly divide statements.) FTISLAND was formed in 2007 as a rock band in 2007 at K-POP, where a group of singing and dancing idols are mainstream. It is already the 10th anniversary of this year since he is deported to Korea. They've spoken that in japin talk talk. It's fast...... For 10 years, it's been really the best food. energy. (The Honggi) If you cast your pride that you couldn't really cast, you might see a new world. I think there was something I enjoyed, what I was happy about, what I was singing, what was painful, that I had something to learn from and I could grow up with him. (Jonghoon) SHADOWS UNITE, a commemorative album released on the 10th anniversary of the Korean debut, was chosen and sung written by each member. It has songs that everyone loves, so I'm going to variety. (Seonhyun) It is our 10th anniversary, and it is a chapter in every member's thoughts, including joy, regret, and burden in the future. (Jaeiin) The Lead Shadow Song was written and composed by me. The favorite part is the words the movement becomes one by pounding overlap. I wrote concerning members, (Jonghoon) on their shadow, do you think that light and shade, what one match does not one yourself? If you ask... The favorite is the shadow. When you are in a dark place, you're calm. But around me, it's light. I've never been a real shade, so I can only see when it's a shadow. Honggi is very bright and absolutely light. When Jae-jin said, the other three also responded and did not announce. I'm half there. I often return and it comes out between light and shade. (Jaeiin in) It's on day now, so it's light, but in the middle of his night it's a shadow. Although I can't say more. (laughs) and a re-training make a significant attack on Jonghoon. (*I think it's ionghoon that it's like this in the original, but it's up and down the light and shadow in context.) I'm a shadow, (MinWan) That's why I keep staving at home. Hong-giga explains the daily life in Minhwan on his behalf. I love light, but when everyone sees it, it's a shadow, Followed by Jong-hoon, who said, I'm a light ..., Seung Hyun pulled out a horse and said. No! Seonhyun is a shadow! Because mental relay is so weak. (laughs) are intense reactions called in the dial. At the end of this, all members are very small. The advantages between these groups seem to have been around for 10 years. There are a lot of songs rising this time, so I want to do the step better than ever. I edged old balls of more strips-like songs, and I think there's a great musical production. Finally, what's your goal 10 years later? I want to dream the next generation. The biggest goal is to be a group that listens to our music and wants to be a group that li song of Japan's regular 7th album UNITED SHADOWS.
