Hamlet character analysis thesis

The play 'Hamlet' is one of the greatest creations by William Shakespeare. Hamlet dominates the play and is possibly the most discussed and controversial character in the world of acting. An analysis of the person or Hamlet's inner self, an analysis of his relationship with different characters in the play, namely Gertrude, his mother, Claudius, his new stepfather, Ophelia, his love and his school friends, would help give an insight into the contradictions in the character 'Hamlet' that Shakespeare has tried to portray. 'Hamlet' represents humanity in general who is forever plagued with contradictions in life. He is ruthless but cautious, polite, but rude, tender, yet cruel, heartless and sensitive. Hamlet has negative qualities such as indecision, haste, hatred and brutality, but he has many virtues. That Hamlet was an extremely sensitive person is evident from his reactions to the murder of his father. His mind was disturbed, and he was determined to take revenge, especially when he was convinced of the identity of the killer. He was horrified that his mother had incestuous relationships and eventually married his uncle Claudius shortly after his father, King Hamlet, was murdered. The very act that infuriated him gave him no sense of remorse or remorse when he murdered Polonius, Rosencrantz and Guildenstern. He was heartless but sensitive. Attachment, feelings and sensitivity can drive any human being into a frenzy, as was the case with Hamlet. The inner turmoil drove Prince Hamlet into insanity, which was perhaps the cause of Ophelia's suicide. The turmoil brings out the mental level that Hamlet was even during his teenage years. This madness forced him to stab Polonius through the curtain believing that it was Claudius that he actually stabbed. This brings out the ruthless attribute within him, but he was too cautious when he took a long time to kill Claudius. He is extremely philosophical and contemplative. He is plagued by questions about the afterlife, about the wisdom of suicide, about what happens to bodies after they die. This is yet another contradiction, which leaves man in a state of dilemma. Based on the letters and gifts that Hamlet gave to Ophelia, it is obvious that he loved her and had tender devotion to her. He hates her for a moment and longs to have intimacy the next. The following words express his longing: Hamlet: Lady, shall I lie in your lap? Located at Ophelia's feet Ophelia: No, my lord. Hamlet: I mean, my head on your lap? Ophelia: Ay, my lord. You think I meant the country to matter? Ophelia: I don't believe anything, my lord. Hamlet: It's a fair thought to lie between the maid's legs. (III.ii.111-20) Hamlet uses Ophelia as an outlet to express his hostility and frustration towards his mother. He's cruel to her not, of madness, but because of his rage at the murder of his father. Hamlet was a weak character, which caused him to procrastinate. The dilemma in him resulted in the delay of killing his father's killer. He felt inadequate and unable to make quick decisions even when the situation required. He criticized himself for this weakness even though he felt he was being forced to make a decision against his conscious. People understand and accept their weaknesses, but it is not always easy to overcome them. While Hamlet gives an impression of a thoughtful and introverted person, there were moments when he acts hasty, as he quickly stabs Polonius through the curtain without verifying who was standing there. This also brings out the brutal character he was. Situations like the suicide of Ophelia made him lonely on the heart. His loneliness deepens, as he is unable to reach a decision. Loneliness is also known to drive a person crazy. Hamlet was nauseous, disappointed, disillusioned and disillusioned with life when he says the world is tired, obsolete, flat and unprofitable. . . . an unweeded garden. He constantly thinks about being, or not being, that's the question. Hamlet was a virtuous and humble person and cared little about the fact that Ophelia came from a very simple background. His virtuous and princely qualities leave a lasting impression on the mind. Over the centuries, many have complained that William Shakespeare did an inadequate job of directing readers of Hamlet to a specific interpretation of each character. Each reader is left to determine the true extent of Hamlet's evil and insane ways or to realize that he is clearly a victim of circumstances beyond his control, therefore declaring him innocent. Because of William Shakespeare's writing style, the reader gets little help in discovering who is truly innocent and who is as guilty as Claudius. Many scientists agree that Hamlet may be the most complex character presented by any playwright. Over the centuries, critics have offered many theories and explanations for Hamlet's actions, but no one has adequately explained him. Many see Hamlet as a deeply troubled youth who caused many unnecessary deaths, such as polonius and Laertes. Critics who support this theory point out the cruel acts carried out by Hamlet, one example being the indifferent and boastful way Hamlet describes the ingenious way he had his two good friends Rosencrantz and Guildenstern killed. But do you want to hear now how I went forward?... I sat down, drafted a new commission, wrote it fairly. I kept it once, as our satists do, a shallowness to write righteously, worked a lot how to forget that learning, but, sir, now it did me a yeoman service. Do you want to know the effect of what I wrote?... A sincere magic from the king, as England was his faithful tributary ... that on the view and knowledge of the content, without debate longer or less, he should these carriers put to sudden death. (Shakespeare 5:228-45) The way Hamlet treats Ophelia, the woman he allegedly loved, also supports the portrayal that he is barbarian. If you marry, I'll give you this plague for your dowry: be you as chaste as ice, as clean as snow, you shall not escape calumny. Get yourself to a nun's clone[referring to a brothel], walk and quickly too. (Shakespeare 3:1 136-141) Another offered interpretation suggests that off of off given by the ghost of King Hamlet, Hamlet seized the opportunity to reclaim what was rightly his throne in Denmark. A less popular belief that has been expressed says that Hamlet was actually a girl, raised as a man, so it would be an heir to the throne. Critics who support this view say that this theory explains Hamlet's reluctance and hesitation to commit murder (which is most often seen as a masculine act). action).
