When implementing the code, you Интерфейс не ожидается error, идея't compiled, Нет интерфейса ожидается means there's no interface. Looking around, looking down, is an interface, not a class, HttpServlet is an abstract class, so when you change to Servlet, you need to change extends to implements. Change экстенд to реализует Ranch Hand Posts: 133 Опубликовано 13 лет назад я получаю эту ошибку: Файл: C:\Документы и настройки\Марис Пользователя\документы\Brandi 'pkAlgs' PrimHear.java (линия: 3 Ошибка: интерфейс ожидается для следующего импорт public class PrimHear implements PriorityQueue . . . private Association . . . private int last; private final int DEFAULT\_SIZE s 10; public PrimHear ( ) , buffer , new Association , DEFAULT\_SIZE , new int , DEFAULT\_SIZE ; //????????? Heapify constructor//pre-condition: size?capacity of the Array //post-buffer: isap ordereded theArray.length . . . . . loc s new int (theArray.length s 1); for (int i s 1; i s; s thearray.length; i s) loc s i s i; last s theArray.length s 1; for (int i = 0; i &lt; theArray.length; i++) buffer[i+1] = theArray[i]; for (int j s (last - 1)/2; j s; j--) s siftDown(j); private void resize(int newAmt) { Association [ ] newBuffer = new Association[newAmt]; //\*\*\*\*\* int [ ] newLoc = new int[newAmt]; for (int i = 1; i &lt; last; i++) { newBuffer[i] = buffer[i]; newLoc[i] = loc[i]; } //\*\*\*\*\*/ } public. void add (Association obj) s//precondition: нет //пост-условие: если последний, буфера увеличивается // obj добавляется кучу, куча сохраняется, если (последний буфер длина) DEFAULT\_SIZE; буфер (последний) = obj; лок-буфер (последний) = obj; deleteMin () бросает HeapUnderflowException //precondition: Куча не пуста//post-condition: s//s/кучи уменьшен на 1, минимальный ключ // удаляется возвращается, порядок кучи поддерживается, исключение: бросает HeapUnderflowException, если (isEmpty ()) - Температура Ассоциации - буфер; locTemp.getKey () locbuffer.getKey () - 1; ----- бросить новый HeapUnderflowException (удаление пустой кучи) - публичная ассоциация мин () бросает HeapUnderflowException //precondition: Куча не пуста //post-condition: Куча неизменна, ключ мин возвращается. throws HeapUnderflowException if (isEmpty) - Association tempo - buffer; Return temperature - another - a throw of the new HeapUnderflowException (Removing from an empty heap); public void decreaseKey(int key, double wt) { buffer[loc[key]].siftUp(loc[key]); } public boolean isEmpty() { return last == 1; } public boolean contains(int key) { return loc[key] != 0; } public double weight(int key) { return buffer[loc[key]].weight(); } private void siftDown(int i) { if (2\*i + 1 &lt; last &amp;amp; buffer[2\*i + 1].compareTo(buffer[2\*i]) &lt; 0) { if (buffer[2\*i + 1].compareTo(buffer[i]) &lt; 0) { Association temp = buffer[i]; //\*\*\*\*\* int holdLoc = loc[buffer[i].getKey()]; loc[buffer[i].getKey()] = loc[buffer[2\*i+1].getKey()]; loc[buffer[2\*i+1].getKey()] = holdLoc; //\*\*\*\*\* buffer[i] = buffer[2\*i + 1]; buffer[2\*i+1] = temp; siftDown(2\*i + 1); } } else if (2 \* i &lt; last &amp;amp; buffer[2\*i].compareTo(buffer[i]) &lt; 0) { Association temp = buffer[i]; //\*\*\*\*\* int holdLoc = loc[buffer[i].getKey()]; loc[buffer[i].getKey()] = loc[buffer[2\*i].getKey()]; loc[buffer[2\*i].getKey()] = holdLoc; //\*\*\*\*\* buffer[i] = buffer[2\* i]; buffer[2\*i] = temp; siftDown(2\*i); } } The private void of siftUp (int i) - if (i zgt; 1 buffer.compareTo (buffer)/i/2) zlt; 0) //z.z., int holdLoc and 2'.getKey (); lo-buffer.getKey I buffer and buffer; Buffer and tempo siftUp (i/2); I know this usually means I miss a bracket or extra somewhere, but I just can't find it and my code won't be compiling. I know I'm missing something simple - does anyone see something I'm missing? Brandi Love Ranch Hand Posts: 133 Watch 431 Star 12.1k Fork 5.4k You can't perform this action at this time. More about this code below leads to an interface error expected here the public interface MyInterface expands the flow - Here is the interface (MyInterface) is created and it inherits (expands) the flow class that is not possible at all. Why? Because the interface can only inherit a different interface, not any class. Because Flow is a class, it cannot be inherited by any interface. The code below is correct as the interface inherits another Runnable public interface MyInterface expands Runnable - a similar type of error posted on the no interface expected here if the above solutions don't work for you. Please comment below giving your code. I'll try to answer that. Share: Whenever I branch this code, Java always emphasizes the offer of a class announcement and the error message interface is expected here. How can I fix it? Tempconverter package; import javax.swing. import java.awt.event. import java.awt.FlowLayout; import static java.lang.System.out Public Class TempConverter Expands JFrame implements ActionListener,(ActionEvent static JFrame f - the new JFrame (); static JTextField enter the new JTextField (3); static JButton confirm the new JButton (Conversion); Public Static Void Core (String) - f.setLayout (new FlowLayout); f.setSize (100, 50); f.pack(); f.setDefaultCloseOperation(JFrame.EXIT\_ON\_CLOSE); f.add (confirm); f.setVisible - @Override public invalid actionPerformed (ActionEvent e) - double preConvert - Float.parseFloat (enter.getText); Double inF, inK; in F - toConvert / 5 - 9 - 32; inK - toConvert - 273; out.println (in degrees Fahrenheit, in Turn, degrees Celsius would be - inF and degrees.); out.println (In Kelvin's degrees, KConvert degrees Celsius will be - inK and degrees.); Published October 26, 2009 - 07:34 AM Can enlighten me how to solve this problem? imported model. import java.awt. \*, import java.text.; import javax.swing.table.
