If you have not played Mystic Messenger in full, you can read something that will expose you to the full story of the game. So please pay attention! It's nice to use messenger, but you'll get hurt if you try to find out too much about me so be careful! -707, Comment RFA Orientation Guidebook Be careful, I'm Dangerous, You Don't Want To Get Too Involved With Me... - 707, Official Profile Normal Party Christmas Child Teenager 707 Luciel Seven Seven, Defender Justice God Seven Hacker God Lucky Seven Cat Abuser (jumin) Cat Dad God? Zero Seven (By Vanderwood) International: 21 * Korea: 22 * * Revealed to Be Older Ray's Good End, 22 (AS) & 23 (OS) Years Old Internationally. AliveMissing (Ray Route Day 9) Hacker/InformantAdvisor/security driver (V's After-Ending) Car Searching, Racing, Developing Programming Languages 707 (Real name Saeyoung Choi, Baptism name Luciel Choi) is often called Seven, is one of the Deep Story characters available in Mystic Messenger. He's a hacker who can quickly find information about everything he can get. Personality For the most part, Seven shows a happy-go-lucky, outgoing and very bizarre personality. He often plays pranks on Yoosung through a chat room, makes fun of other members (and himself), and, in response to almost nothing, meets a series of lols. He is essentially your typical joker who loves cars (he owns several) and possesses a passion for hacking. However, the player's first impression of Seven is not quite Seven. Outside the chat room, and behind the humorous front he puts up, Seven is actually quite depressed and serious, and he refuses to believe that anything good can happen to him. It's because of his past and his profession, because he thinks he's a threat to everyone he can access. This fear is raised very often during events on his route, usually when he tries to push the player away. Although he rejects the player at first, it is obvious that he values them quite a lot and very easily shows affection when convinced that the player will accept him regardless of how he is. After his route, he returns to his previous self, just toned it up a little bit. It is also mentioned that he is Catholic and shows its religious values. The appearance of Seven is messy vermilion hair and golden eyes. He usually wears a black jacket with an amber accent. He is 175 cm (5'9") tall and weighs 69 kg. She is always seen wearing her glasses, which have yellow dark gray (sometimes depicted in black) stripes. His orange headphones are seen around his neck most of the time. She also wears a silver cross necklace. Seven rarely change his equipment. His attire at the party consists of a white vest adorned with red accents over a black shirt and red tie. He crossdresses and cosplays often the player can get pictures of himself in different costumes throughout the game. She's dressed like Rika, maid, astronaut, fairy and nun in the past. Backstory Seven grew up with his younger brother Saeran until he was 15 years old, in a toxic household. His father is the current prime minister and candidate in the current presidential election; their father knew that he was not doing well in the election when the information that Seven and Saeran were born out of marriage (a woman who is not his wife) leaked, so their mother decided to hide Seven and her brother in exchange for money. Their mother abused Sarin because she was weaker than seven and became ill more often. Saeran's sentences included being tied to his feet in the kitchen so he could not leave, beaten, and starved and dehydrated for days. Seven took it on to change its future. Seven learned how to hack using a book he found about data processing, allowing Satatan to run away together. He met Rika in church and later V. When Seven was 15, V told Seven to take on a new name and work for an intellectual hacking company, but that he should not take Saeran with him. Seven refused at first, but after much persuasion from V, he left Saeta, entrusting Saetan's safety to V and Rika. It is known from one of his phone calls on his line that he graduated from college early, but his major and training remains a secret. Deep Story Seven engages in a friendly conversation with the player, and anyone can say that he is fond of him. He becomes disturbed at work because of his growing feelings, and builds a fire-spewing dog robot player. However, Vanderwood, who turns out to be seven bosses at work, not a maid, continues to visit her at home, pressuring her to stop working as an important customer. She is irritated, coming only to help her clean up and reminds her that failure to finish her job on time can mean death for both because of the nature of her work. Similarly, to force Yoosung into studying instead of playing LOL, Jumin invites her mother without permission to have her visit to her home. On day 5, after the messenger was hacked, all RFA members will start suspicious e-mails, except seven and player. The unknown secretly falsifies the algorithm of rika's apartment security system and can use it to 6. Working seven notices the changes that Unknown has made, and becomes torn by performing his job and protecting the player at the same time. Vanderwood reminds him that the type of work they do not allow for long-term relationships, and recommends him a assigned job now. Frantic, Seven steals all his tools and takes them to his car, solving the problem to protect the player himself by going to rika's apartment. He leaves the dog to deal with Vanderwood to run away from him. On the night of day 7, Rika enters the apartment without knowing the window, but seven arrives on time. Seven is shocked to see Unknown has his estranged twin brother, Saeran, who he thought was taking care of Rika and V. The special security system then restarts, which Seven immediately warns his brother to escape before the whole place explodes because the system is feeling unknown like a stranger. The unknown swears he'll pay back and be able to escape. Seven then requires the window to be repaired. After continuing to check the security system, seven messengers testified that Rika had personally asked her to install a bomb in the apartment to destroy the sensitive documents stored there. He continues to stay with the player to protect him, but is so puzzled by what has happened that he rejects him completely. Seven insists that the playful personality she had radiated from previous conversations had all been a prank because she was not allowed to build relationships with others because her work would endanger people close to her. When a player finds a floppy disk in one of the Seven books, he becomes angry at him and tells him not to touch it. Seven refuses to talk about Saeman and asks the player to keep it a secret, and no matter how kind the player acts against him, he pushes him away. On the night of day 8, V finally returns to Jumin's call, but has poor service and can't say much because his phone is bugged. He goes to the messenger to speak to the Seven, but when he faces Saen, he avoids the situation. Curious, V asks if Seven has looked at some documents in the apartment, and tells him not to look at them if Seven answers negatively. The conversation has been quickly cut off and Seven has completely lost confidence in V. Other RFA members are also frustrated with V's actions as well, and are concerned about the conduct of the party. At one point, Seven decides to quit RFA, especially since its work puts its friends at risk, which makes Yoosung angry. Seven will destroy the robot he made in a fit of anger. As he ponders Saeran and V, he slowly begins to open up to the player. The day after, he started repairing the robot, and eventually he convenient to talk about his past, where he fled his home life with the help of V, to ensure he and Saeran soon live a better life. Seven even decides to show the player the contents of the floppy disk, which contained pictures of Saeran that Rika secretly took to keep him informed of his well-being. Soon, from reconciliation to the past, Seven begins to return to its cheerful self and makes amends with Yoosung. V's order gathers the courage to open a drawer filled with secret documents. It finds the early version of the logo found in emails from members of rfa obtained as well as drawings of the building from which the emails were sourced. He is shocked to discover Rika may be affiliated with an organization targeting RFA, and there may also be answers to changes in Saeran. Seven makes the decision to break into the building, and the player decides to come with him. Seven and the player enter Mint Eye and hack their computers, only to get caught by Saeran. When the seven try to convince Saeran truth that V proposed that he start working to erase his identity when he and Rika take care of Saeran, the latter refuses to believe him, crediting his survival from his abusive home life to his Savior. When Seven and the player show the contents of the floppy disk in Saeran, Saeran insists that Seven had put the images on the disk itself. He has to break and run out of the room, leaving the player and seven trapped in the computer room. Outside, Vanderwood, who came to pick up seven, is robbing him at gunpoint right in front of V. Seven and the player escape mint eye, only to run a V outside. Although Seven no longer trusts V and confronts him for his darkness, V admits he saw Vanderwood take Sarin by force. In the chat room, he apologizes to RFA and resigns as leader, appointing Jumin to replace him. On day 11, Seven and the player choose to look for Saeran instead of going to the party. Relationships with MC Even outside 707's route 707 cares deeply about the MC when he makes jokes and general banter, which the MC can play with especially when he pranks Yoosung. Despite his dangerous work, he cares enough to protect the MC by watching him every 2.35 seconds and even putting himself at risk for him on several occasions. On the 707 route, they continue to joke around with each other, although if the MC insists he cares about 707 at the depths of the level, he would light a shadow or say something you shouldn't be too involved with me. Despite this, the 707 is probably in love with the MC, going so far as to run over the Apartment when Saeran is to be defeated by a player of his cult. After that interaction after this change, he shows an alternative face who acts coldly and tries to push the MC away as he tries to get closer to him. Overtime, 707 accepts your feelings and declare my love for him by saying: Without you, I would have no hope. In The Usual Ending, the 707 takes the MC to his hometown cathedral, where he is seen in a white dress similar to a wedding dress, but it's unclear if they got married or not. In The Post End, it is assumed that they had intercourse before leaving to save Saeran as they are seen lying on a bed spooning each other. In the latest chapter of Secret Ends 2, it is the default that the 707 offered at some point between After The End and Secret Ending 2. Jumin Seven's friendship with Jumin consists of Jumin rejecting her attempts to meet Elizabeth 3rd, or Elly as Seven nicknamed her, because her love is comparable to harassment or abuse. Their communication is mostly related to Elizabeth3, but when Seven is in trouble, Jumin would use his powers to help her without hesitation. Jumin also seems to respect Seven's hacking skills, and skills in general. Zen 707 is one of the people who had helped Zen career by spreading one certain video to Zen and earning him popularity with hacking, and making it become a virus in his own way. On Jumin's way, they seem to get along very well, continuing each other's sentences and mocking Jumin's personality change together. Yoosung Yoosung and Seven seem to be good friends. Zen were friends in high school, but Seven couldn't attend Yoosung's graduation because they were abroad at the time. Seven enjoys playing pranks on Yoosung, and Yoosung is gullible enough to fall on them every time. In one of Yoosung's Bad Relationship Ending, Yoosung goes to Seven's place, after telling the MC that he really doesn't love her, where they then fight over Honey Buddha chips several times a day. Jaehae Jaehae treats Seven exasperation when she tends to respond to her jokes coldly. But he really doesn't hate her, respects her intellect, and doesn't want it when Seven isn't rfa or chatting anymore. At one point, he suggests that Seven should add a feature that allows members to delete messages indicating that it does not rely on him in some cases. V V is someone seven entrusted very much, as all other members (except Yoosung) have RFA do. Seven trusted Saeran's safety with V and knowing how important Saeran is to Seven, that is, seven trusts V. He was also the one who introduced the Seven to the secret intelligence agency where he works, and Seven treats V as an isafgu. When V's secrets came to light, seven were devastated by his betrayal, to the point that he almost stopped RFA. Vanderwood Vanderwood acts as Seven's handler and caregiver when he works for the agency, often going to his house to check his work. When he visits, he usually cleans the Seven house, resulting in Seven giving him an alias for his maid. Seven gives him mary vanderwood's name on the 3rd. Although Vanderwood seems to dislike Seven, it has proven wrong because he seems to care about other hackers' safety, which involves going to length like saying that seeing Seven's body would ruin his life. It is not clear whether these are romantic feelings or not, but it is assumed that he cares about the Seven. It is also said that Seven cares about him, as much as to hack government documents and get Vanderwood a new identity to keep him safe from harm's way. Rika He's the one who made the security system for Rika's apartment and the only one who can enter her apartment. He first met Rika in church when he was a kid. Rika gave him a book on computer skills, and with V, he gave him a new life as Luciel Choi and an undercover agent and promised to take care of Saeman. He also once sent Seven a floppy disc full of pictures of Saeran, despite being an undercover agent who should not have a family. Rika is very important to him, and he even once claimed that if he could sacrifice himself so he could be alive again (if he believed he had killed himself), he would have. However, this opinion of her was later changed, almost like a full 180°, after Seven had known Rika's dark secret. Unknown unknown is Saeyoung's younger twin brother. When they were young, their father ran in the presidential election and their mother constantly blackmailed him into sending them money so he wouldn't reveal the existence of their two sons. His mother was told to abuse Saeran when he was weaker and became ill more often than Seven. Seven trained themselves to hack and took it on to help their brother and himself have a good future. But the seven met V and Rika in the church, who convinced him to join them - on the condition that he leave Saeran. While in Mint Eye, Saeran was given drugs that were used as a method of brainwashing. Seven was told that Seven had abandoned him, which caused Saerin to mourn his brother, even causing him to shoot and kill seven in the third bad relationship that ended. But at the end of the seven good endings, Saeran apologizes for his actions, and his ties to the Seven have been restored. Mother Choi She's the abusive, alcoholic mother of seven. He beat and may have starved the Seven next to his brother, but with the help of V he was able to escape to become an informant. Saeyoung Choi He is the father of seven who tried to kill him as a child because the existence of seven as his edical child threatened his political career. He managed to rob her on Ray's route. The news broadcast says Seven is still missing and it has not been confirmed whether or not he was killed by him. The spacecraft shows Offfff &amp;... Control C, control V.
