Click HERE to return to the main site 'Activate GTA IV' During the typical installation of GTA IV PC, users with an active internet connection will be prompted to perform the 'Online Activation' of the game. 'Activation' is a mandatory process for all installations of GTA IV PC, regardless of format. In the event that 'Activation online' cannot be performed, one or more conditions may prohibit this (see below) and 'Manually activation' will need to be performed. Known conditions may require the game's 'Manually Activated': You DO NOT have an active internet connection on the computer where the game is being installed 'Your Firewall may prohibit this computer from contacting our servers; make sure Port 443 is turned on on your personal firewall or network if you can access the internet outside (friends' homes, internet cafes, etc.), or through another PC in the same location there may be restrictions Different fire, you can take the necessary steps to complete the 'manually activated' game. This process will be explained in the details below. Manually activating your game, using a computer other than internet access, is a three-step process. 'Manually activate' The three-step process: Collects 'Product Code' (serial number) from the back of the game manual, and 'Unlock required code' is displayed during the Create 'Unlock Code' setting on another PC with internet access and does not restrict the Firewall Take your 'Unlock Code' back to the computer where the game is installed and continue to 'activate' the game STEP ONE: To create the 'Unlock Code', you will need to collect the following information first: GTA IV PC Product Code (serial number): This code can be found on the back of your game manual, or in a payment e-mail if you purchase the game online, and will be in the following format : XXXXX-XXXXX-XXXXX-XXXXX-XXXXX Unlock Requestcode: This code will be displayed during the installation of the game, or by running the game again after installation is complete, when no internet connection is detected and you select 'Manually activate' (example shown below): Record or 'copy and paste' 'Unlock required code' displayed on the next screen (see below) Note: Be sure to record these codes or 'copy and paste' them into the TXT file and 'Save' them before continuing. You will need to bring these codes with you, to complete the next step. STEP TWO: On an external computer that has internet access, you now need to create a 'Unlock Code'. You may even want to try to create an 'Unlock Code' on a different computer in the same first place, as individual firewall settings can vary from computer to computer. To create an 'Unlock Code' for PC GTA IV, enter the Product Key (serial number) and Unlock Request Code (which you carry) into the fields provided below. Click on the 'Create unlock code' button (see below) and your 'Unlock Code' button will be created: When your 'Unlock Code' is created in the field above, make sure to write it carefully or 'copy and paste' it into the TXT file and 'Save' it before continuing, so that you can use it to complete the 'activation' process on the computer where the game was installed. Once you have received the 'Unlock Code', AND you have saved it (or carefully written it down), please return to the computer where you installed the GTA IV PC. STEP THREE: To complete 'Activation', follow these steps on the computer where the game was installed (Note: You may need to make sure that you have administrative rights to complete this process): Launch Grand Theft Auto IV PC (see game manual if you need instructions) You'll be reminded of the 'Unlock Code' you previously got from a pc with links internet connection, as well as 'Product Code' (serial number) Enter these codes into the applicable fields (see image above) and click 'Activate' to end the process Your Game will now be installed and fully activated If you have any more or issues related to securom components and functions that are not resolved on this support site, please contact support\_pa@securom.com and provide a detailed description of the problem you are experiencing.
