Measuring learning checkmeasurement learning checksss resources will help you assess student mastery of the notch around measurement and timing. This sheet will be a challenge for third-graders with problems in the area, perimeter, measurement and time that has elapsed. Sheets & Math & Grade 3 & Word & Time Below Problems are three versions of our Class 3 math sheet with word problems that include elapsed time and time. Students are asked what time it will be a certain number of hours, what time, or how many hours elapsed between two events. Hours are given until the nearest minute. Some questions also ask students to convert hours into minutes or from a few minutes. These sheets are pdf files. Related: Grade 3 adding word problemsGrade 3 volume & word capacity problems Expired Time Word Problems 3rd Grade Worksheets July 14, 2020 by time word administrator 3rd Grade Problems – Displaying top 8 sheets found for this concept. Some of the worksheets for this concept are word time problems, time interval word problems for third grade, 3rd5th grade, telling time work, common basic word problems 3rd grade, grade 3 mixed math problems and work word problems, 3rd grade math problems with lesson, 3rd grade math work facts. Found the worksheet you're looking for? To download/print, click the pop-up icon or print icon to print or download the sheet. The worksheet opens in a new window. You can & download or print using the browser's document reader option. Elapsed time is the time that elapses between the beginning and the end of an event. Concept well fit into the primary school curriculum. Starting in third grade, students should be able to tell and write time to the next minute and resolve the problems with adding and de-recording time. Strengthen these basic skills with the following problems and time word games. These quick and easy word time problems are ideal for parents and teachers who want to help students practice expired time to the next minute with simple mental math problems. The answers are listed below. Sam and his mother arrive at the doctor's office at 2:30 p.m. They see each other at the doctor at 3:10 p.m. How long have they waited? Dad says the dinner will be ready in 35 minutes. The time now is 17:30. What time will the dinner be ready? Becky meets her friend in the library at 12:45 p.m. It takes her 25 minutes to get to the library. What time will she have to leave her home to arrive on time? Ethan's birthday party began at 4:30 p.m. The last guest left at 6:32 p.m. How long did Ethan's party last? Kayla put the muffins in the oven at 3:41 p.m. Tips say that muffins need to bake for 38 minutes. What time will Kayla have to take them out of the oven? Dakota arrived at the school at 7:59 a.m. He left at 2:33 p.m. How long has Dakota been at school? Dylan started homework at 5:45 p.m. It took him 1 hour and 57 minutes to complete it. What time did Dylan do his homework? Dad comes home at 4:50 p.m. He left work 40 minutes ago. What time did dad get out of work? Jessica's family travels by plane from Atlanta, Georgia to New York. Their flight departs at 11:15 and should last 2 hours and 15 minutes. What time will their plane arrive in New York? Jordan got into football training at 7:05 p.m. Steve showed up 11 minutes later. What time did Steve get to practice? Jack ran the marathon in 2 hours and 17 minutes. He crossed the finish line at 10:33 a.m. What time did the race start? Marci took care of her cousin. Her cousin was gone for 3 hours and 40 minutes. Marci left at 9:57 p.m. What time did childcare start? Caleb and his friends went to see the video at 7:35 p.m. They left at 10:05 p.m. How long was the video? Francine got to work at 8:10 a.m. She left at 3:45 p.m. How long did Francine last? Brandon went to bed at 9:15 p.m. It took him 23 minutes to fall asleep. What time did Brandon get asleep? Kelli had to wait in a long, slow-moving line to buy the popular new video game that has just been released. She got in line at 9:15 a.m. She left the game at 11:07. How long did Kelli wait in line? Jaydon went to batting practice Saturday morning at 8:30 a.m. He left at 11:42 a.m. How long has he been in batting practice? Ashton got behind her reading task, so she had to read four chapters last night. She started at 8:05 p.m. and finished at 9:15 p.m. How long has Ashton been catching up on her task? Natasha has a visit to the dentist at 10:40. It should last 35 minutes. What time did Mrs. Kennedy's 3-grade class end? for aquarium aquarium on the ground. They are 9:10 a.m. and leave at 1:40 p.m. How long will they spend in the aquarium? Try these games and activities at home to help your kids practice elapsed time. Let your children follow their schedule and ask them to find out the time elapsed for each activity. For example, how long did your child spend eating breakfast, reading, bathing or playing video games? Give your children a time-lapse exercise by encouraging them to find out how long their daily activities last. For example, the next time you order pizza online or by phone, you'll probably get an estimated delivery time. Use this information to create a word problem that is appropriate for your child's life, for example: Now it's 5:40 p.m., and the pizzeria says pizza will be here at 6:20 p.m. How long will it take for the pizza to arrive? Order a set of time dice from online retailers or teacher supply stores. The set contains two 12-sided cubes, one with numbers representing hours and the other with numbers representing minutes. Take turns rolling the bones of time with your child. Each player should throw twice and then calculate the time elapsed between the two resulting dice times. (Pencil and paper will come in handy because you'll want to record the time of the first roll.) 40 minutes6:05 12:20 2 hours and 2 minutes4:19 and 34 minutes7:42 16:10 16:10 13:30 13:16:16 18:16 16:17:17 hours and 30 minutes7 hours and 35 minutes9:38 hour and 52 minutes3 hours and 12 minutes1 hour and 10 minutes11:15 and 30 minutes Sheets & Math & class 3 & Storytelling Time Our Class 3 timescards give students additional practice in reading the analog face of the clock, as well as calculating time intervals, estimating time, converting time units, and working with calendars (read and write dates, elapsed calendar time, year-round calendars). Example level of a grade 3 calendar sheet: BasicHalf Hour IncrementsElapsed Time Number Line (Basic)Use number rows to resolve time issues that have passed. The hours on this page are separated at half-hourly intervals. For example, 17:00 to 19:30.3 and class 4, the (Basic) Time Prophesies practice elapsed at intervals of thirty minutes. Print pennant on heavy cards. Students write the start time, the end time, and the elapsed time. Cut them out and stretch them in class!2 to level 4 classes: Intermediate5 Minute IncrementsElapsed Time Pennants (5 Minute Intervals) Practice time elapsed at five-minute intervals. Print pennant on heavy cards. Students write the start time, the end time, and the elapsed time. Cut them out and stretch them in class!2nd through 4th Grades Math This math sheet shows your child problems with words about how much time has passed.
