## Laptop usb tv tuner

Our editors independently research, test, and recommend the best products; You can learn more about the review process here. We may accept fees purchased from the links we choose. The best USB TV tuner can watch television on your computer! Discard your TV and use your TV tuner to choose your TV from your computer or laptop. You can easily watch TV on the go or bounce from room to room without missing a second of your favorite shows. When you buy a new TV tuner, you know you're streaming premium content, not free TV, but that doesn't mean you have limited options. Our first choice, hauppauge 1191 winTV-HVR-955Q from Amazon, is because it boasts the most popular 1,500 available TV stations broadcast. The device is also compatible with Windows devices and can play shows as well as recordings. The best USB TV tuner will help you integrate your TV features to make your computer versatile. Hauppauge WinTV HD TV Tuner is one of the most popular on the market and offers a suite of features that allow you to watch live TV and record easily. Available on any Windows laptop or desktop, the installation is windy, and Hauppauge's tuning software, known as WinTV, is intuitive and easy to navigate, i.e. finding and recording programming doesn't require a learning curve. It records the program with one click of the mouse button and you can even see other programs while recording the first one. With HDTV, analog and QAM cable TV functions, the included antenna makes channel search as easy as possible. Once set up, the channel can easily multitask in the window or view the entire screen. And the included WinTV app allows you to play recorded programs. Meanwhile, ATSC HDTV offers free over-the-air digital TV at 1080i resolution on all PC screens, with 1,500 TV stations broadcasting in 200 cities nationwide. AVerMedia AVerTV Volar Hybrid Q USB TV Tuner is an excellent option that supports Windows computers and Android TVs. Compatible with ClearQAM, analog, OTA FM radio, and ATSC, AVerTV is a cost-free feature-rich choice. With intelligent features such as photo photos, smart channel grouping, time shifting, closed captions and available electronic program guides, AVerTV has everything you need to replicate your existing cable. The scalable high gain antenna is powerful enough to receive powerful FM radio, as well as smooth streaming of digital TV channels. By connecting analog devices via composite cables or S-Video inputs, you can use more video with alternative digital formats. Add DVR software directly to your Android and iOS devices using usb-enabled apps that connect to your PC and downloadable apps (no file conversion required). Navigate and adjust channels through an intuitive user interface. Or choose live TV wind. Connecting directly to the USB port of your Windows computer, Hauppauge WinTV-DualHD USB TV Tuner is a good choice for viewers who want to enjoy multiple channels at once. Dual TV allows you to select channels that users can view and record different channels at the same time (two simultaneous streams open at a time thanks to the pictures). As with remote controls, USB extension cables, and activation cords for WinTV Windows applications, it includes a portable TV antenna for increasing signal reception. Once installed, buyers can enjoy the over-the-air ATSC HDTV as well as full HD quality ClearQAM digital cable TV (even in full screen). You can also schedule digital programming to be recorded. It's compatible with the very popular Flex Media Server software, which means that users can upload shows to Linux and Android devices, including Nvidia Shield. Hauppauge digital TV tuner for Xbox One makes it easy to use free over-the-air broadcasts directly on the Xbox platform, including live TV streaming and pauses. The included One Guide integration provides immediate access to future programming, including local listings. Once connected to your Xbox via USB, you're ready to set up a 10-mile range antenna that's near the window. It picks up ATSC digital TV signals and offers more than 1,500 TV stations in more than 200 cities across the United States. It is worth noting that ATSC programs are free and do not require a TV subscription. AllAboutAdapters USB DIGITAL ATSC Clear QAM TV Tuner is a budget-friendly option for cord cutters looking for fast and easy options with free TV programs. USB-based ATSC SD/HD TV tuners provide connectivity to Windows notebook and desktop PC products through free over-the-air digital programming across North America. The included ClearQAM tuner can decode unencrypted QAM channels and provide local stations, public access channels, or private QAM channels. Although the price is wallet-friendly, the TV tuner still has the ability to skip subtitles, electronic programming, pause, rewind, fast forward and advertising. The TV tuner, which supports direct image of the disc function, adds the option to instantly record in real time or schedule a recording schedule with output in 1080p Full HD. ATSC Android Digital TV Tuner is a rare breed. It was created to work with Android devices, turning them into standalone portable TVs. It can work with both smartphones and tablets as long as they run Android 5.1 latest. Tuner is connected to an antenna, so you can watch broadcast TV shows on your device without having to pay for streaming. The included antennas provide a solid reception and do not require any additional power supplies or batteries to operate. Final Verdict Best USB TV Tuner is the well-known Hauppauge 1191 WinTV-HVR-955Q (seen at Walmart). It's a popular option that makes it easy to watch and record live TV on any Windows laptop or desktop. The installation is easy and winTV software is intuitive and easy to navigate. A good second option is the AVer Media Volar Hybrid Q (view on Amazon). It supports both Windows PC and Android TV while it is not very expensive. Update 05/11/2019: Our best USB TV tuner for a PC or laptop is recording digital Freeview and sports television on a watching computer or laptop.
