There was none other than the late Prof. B.V.Raman of Bangalore. He was born on August 8, 1912 in Karnataka. पढ़ें और पढ़ें और भर शुभ दिन शुभ मुहूर्त, मुहूर्त, प्रवेश मुहूर्त और भी बहुत कुछ। His grandfather, the late B.Suryanarayan Rao, was a well-known astrologer of his time, and many leading British officials and kings consulted him. Was B.V.Raman and in his tips B.V.Raman ji used to remember shlokas mentioned in ancient classics since childhood. As an astrologer I always recommend his book My Experiences with Astrology to one and all because it clearly depicts how indie at that time and what happened today. A real mess and nothing more. You can see the beauty of his horoscope, gajkesari yoga forming on axis 4-10 is a feature of this horoscope. The ascendant is subjugated not only by the ruler of ascending Saturn, but also by Venus – Lord II of Bhawa and Mercury – lord of 5 bhawa. Although the exalted moon is to some extent blemish due to Saturn causing punarphoo, the bad effects are negatveed by the power aspect of Jupiter, which is the 11th lord of the house and the 2nd lord of the house. Daily horoscope Interesting is that his grandfather B.Suryanarayan Rao has so much faith in this Jupiter that he did not even bother with anything else and predicted that one day he would rise high and make a name for himself and now we know him as the person who brought Indian astrology to the level and respect he deserves. So many astrologers sprouting like weed here and there now- days on social media and elsewhere are not a good sign really in favor of astrology, but it will further reduce the value astrology deserves in fact.
