Authors : Doug Casey. Publisher: Casey Research. Signed : False. First edition : False. Dust jacket: False. Product category : Books. Mandatory: Paperback. See Details - Completely wrong volume 2 Doug Casey, Good Book See all 2 pre-owned listings by Doug Casey: Buy it even though it's still cheap full online desus and mayor full episodes like Chris Farrelly die I am 4 weeks pregnant and feel inflated Phil Donahue even dedicated the entire episode to his work. These controversial interviews must be read by all Townhall Media readers. So he lacks some of the flaws common to professional politicians. Better yet, all members of the Deep State reflexively hate it. He has some personal experience with the destructiveness of regulations. He should be pulling these things out of their roots and sowing agent Orange, where they grew up. The same applies to taxes. And if he...? There are millions around the world who hang on to it every word and are happy to pay for it too.... So why on earth does a guy give away his words of wisdom for free...? So, before you hit this button, just give us a few minutes of your time to tell you a little more -- not just about the completely wrong volume two, but also about the Casey report. The only thing a guy does is recommend to his followers how they can profit from a great opportunity. Doug wrote a book about profits from periods of economic turmoil: his book Crisis Investing spent several weeks as a 1 New York Times bestseller list and became the best-selling financial book with copies sold; beats big-caliber names such as free-to-choose Milton Friedman, Real War's Richard Nixon, and Cosmos Carl Sagan. Doug broke the record with his next book Strategic Investing, receiving the largest advance ever paid for a financial book at that time. Doug is one of the chairman of Casey Research, an investment research publisher that helps self-directed spots earn higher returns through market dislocation. After graduating from management and economics, Justin worked for several years as a commercial real estate evaluator in New Orleans. While serving as an interpreter, Justin joined Casey Research as a part-time analyst and joined the writer before becoming a full-time analyst in March. Justin is currently editor of The Casey Daily Dispatch. Printed in the United States. Today this politically incorrect millionaire wants you to send a copy of the most astonishing book in America.... Are you worried that America is changing hard Ways... and even harder to predict? I work for one of the most respected financial publishers in America, based in Palm Beach, Florida, just down the road from Mar-a-Lago. And I want to send you a book that will shake this country right up to its substance. Because this book has an off-the-record chat with Doug Casey, a legendary investor who has influenced a generation of successful entrepreneurs and thought leaders... Report from The Last Honest Millionaire in America Doug Casey's Investments To Avoid For 2019 (Part 2) Completely Wrong Review - How Is Doug Casey's Volume 2 Book? Bestselling author and world-renowned speculator Doug Casey has built a well-deserved reputation for his erudite and often controversial insights into politics, the economy, current trends and investment markets. Doug shares his no-holds-barred views on the modern space race... cryptocurrencies... Donald Trump... cultural appropriations... College... opioid crisis... and much more. Doug Casey is a brutally independent thinker, passionate believer in free markets, and a contrarian investor at the core. Doug Casey, the world's best-selling author, and libertarian philosopher Doug Casey has earned a well-deserved reputation for his erudite and often controversial insights into politics, the economy and investment markets. Doug literally wrote a book about profiting from periods of economic turmoil: his book Crisis Investing spent several weeks as a 1 New York Times bestseller list and became the best-selling financial book with copies sold; beats big-caliber names, such as the free pick of Milton Friedman, The Real War's Richard Nixon, and Cosmos by Carl Sagan.. Completely Wrong Volume 2 Paperback - Doug Casey (Author), Justin Spittler (Introduction) Crisis Investing: Opportunities and Profits Coming Great, city wichita falls off water . The best-selling author, world-renowned speculator and libertarian philosopher Doug Casey has earned a well-deserved reputation for his erudite (and often controversial) insights into politics, the economy and investment markets. Doug is widely respected as one of the first authorities for rational speculation, especially in the high-potential natural resources sector. Doug literally wrote a book about profiting from periods of economic turmoil: his book Crisis Investing spent several weeks as #1 to the New York Times bestseller list and became the best-selling financial book of the 1980s with 438,640 copies sold; beats big-caliber names such as free-to-choose Milton Friedman, Real War's Richard Nixon, and Cosmos Carl Sagan. Then Doug broke the record with his next book, Strategic Investing, receiving the largest advance ever paid for a financial book at that time. Interestingly, Doug's book International Man was the most sold book in Rhodesia And his latest releases Completely Wrong (2012) and The Law Money (2013) continues the tradition of challenging statism and promoting freedom and free markets. He was a featured guest on hundreds of radio and television shows, including David Letterman, Merv Griffin, Charlie Rose, Phil Donahue, Regis Philbin, Maury Povich, NBC News, and CNN; has been the subject of many periodicals such as Time, Forbes, People and the Washington Post; and is the permanent rapporteur for FreedomFest, the world's largest meeting of free minds. Doug lived in 10 countries and visited more than 175. Today you will most likely find it in La Estancia de Cafayate (Casey's Gulch), an oasis located in the high red mountains outside Salta, Argentina. Cafayate most resembles the isolated beauty of Bryce Canyon, Utah along with lush vineyards in Napa Valley. The population enjoys the economic and social freedoms that are not in the US, and the best wine and golf on the planet. Casey Research is a financial publisher that sells insights and advice on investment and other financial topics. Their latest move includes an offer to people with a free edition of the forthcoming book Completely Wrong, followed by a book of the same name published in 2012. Both books were written by Casey Research founder Doug Casey. However, the proposal is made in a long-winded square by Justin Spittle, who also works for Casey Research. Team Behind Casey Research Totally Incorrect Vol 2 Across Spittler's almost endless explanation of how readers can get a free version of Completely Wrong, he describes Doug Casey as a reclusive millionaire who is known for accurate predictions of large-scale global and financial events. Spittler claims that Casey predicted the collapse of the USSR, the 2008 financial crisis and the collapse of big companies such as Sears and GM. He also says that Casey participated in head-to-head discussions with many prominent politicians, consulted several foreign governments and invested in more than 1,000 different companies. Spittler's description of Casey is obviously biased and more glow than most people would give to his spouse on their wedding day. Casey's previous Casey Research website reads the same way, expressing pride in his controversial and controversial perspective, describing him as one of the first authorities to rational speculation. Spittler makes this point of mentioning that Casey referred to political correctness as a tsunami of untreated sewage, while also referring to the Quran as a really bad science, among other things, smart people wouldn't be proud to have said. Spittler himself is responsible for editing the Casey Daily Dispatch, a daily newsletter that is sent to subscribers. He prides himself on travelling the world, much like Casey himself, to find hidden gems and unique investment opportunities. Spittler is tagged the Casey Research website as one of Doug Casey's closest confidants, which explains why he is the one making a pitch on behalf of Casey, a reclusive millionaire. What is completely wrong vol 2? After over-praise for Casey, Spittler eventually explains some of the content inside completely wrong. Spittler describes the book as a plan for modern America, stating that it reads as a guide to the direction of the country. He says the book touches on a variety of issues, including the stock market, racial tensions, feminism, refugees and even the emergence of Bitcoin and digital currencies. Spittler says Casey is unafraid to deny reports from the basic and misconceptions that people may have. He explains Casey's arguments that he wants to share insights, saying that Casey is so rich and well connected that he doesn't care what other people think, which is a statement that reeks of arrogance and sound from someone who has little to think other than himself. After all, Spittler goes in detail about what readers completely wrong can expect to learn. Among the insights that Casey provides in the book are: Investments that Casey has made and have high hopes for, calling them the best opportunity since 1971. The shortcomings of the financial system in Casey mean a huge accident waiting to happen. A startling forecast for the market bubble and what investors can do. What people should know about bond purchases, as well as what people who already have their bonds should know. Where investors can find another super boom and the event that Casey is waiting for that will make him and others know that this is about to happen. In addition to financial and investment topics, Casey also discusses his feelings about Donald Trump in detail. Among Mr Trump's related highlights is the exact wrong thing: Why does Casey find it ridiculous to think that Russia is responsible for hacking the US presidential election. What countries, with the exception of Russia and China, which, in Casey's view, should be concerned about influencing future elections. Three people are Mr Trump's nominee, who Casey considers to be the most problematic in the next two years. Why Casey is not a fan of Attorney General Jeff Sessions. An insight into one possible event that Casey believes could wreak havoc on Mr Trump's second year in the White House. Casey also appoints three chapters completely wrong to discuss cryptocurrency and related topics. In those chapters, it includes: Why the government will start forcing people to use the cryptocurrency created by the government itself. The prognosis about the price of Bitcoin, which the unnamed tech billionaire told Casey at a private meeting and how he can make the average man rich if they know what lies ahead. Why the cryptocurrency ecosystem is bankrupt a \$5 trillion business whose technology people use every day. An insight into technology that could destroy the digital currency, but how people will be able to benefit from it anyway. There are also many other topics that Casey touches on in the book, including: Why a politically correct approach to racism is only going to make racial tensions in the country worse, not better. What Casey believes is the real cause of the drug epidemic plaguing the U.S. Why Casey describes the Illinois debt crisis as absolutely amazing. Three ways Casey is preparing for the federal government to become unhinged and out of control, and why ordinary people have to do the same. Finally, Spittler gets the exact deal he offers people. If they just pay a \$4.95 shipping fee, people will get a copy of Casey's Totally Wrong Book. They will also receive 30 days of free access to the Casey report. After these 30 days, people will be charged \$99 a year to subscribe to the Casey report unless they call for a recall. To sweeten the deal, Spittler also says it will include access to two posts written by Casey. One is called Uranus Bull: The Coming Shortage that will send one stock to Soaring, while the other is named Last Chance For Marijuana By Millions. Verdict on the completely wrong Vol 2 Casey research It's clear that it's all a ploy for you to subscribe to the Casey report that Casey Research can get \$99 from you each year while trying to sell you all the other materials and offers. In theory, you can take your 30-day trial and cancel it while getting to keep completely incorrect and two other reports. However, it may not be worth going through all the troubles. Doug Casey may have a viable mandate as an investor, but he's a marginal conspiracy theorist who has little or no understanding of the average person. Spittler's pitch is more of a love letter to Casey than it is an offer to get Casey's latest book for free. On the surface, Casey's book seems to hodgepodge crazy theories, Casey's own agenda, and misguided political beliefs. He may have made some good calls in his life that made him millions of dollars, but that doesn't mean he's insightful about every topic. The average person may be better off avoiding Casey's latest work and applying himself to every idea that ever entered his head. Page 2 Casey Research is a financial publisher that sells insights and advice on investment and other financial topics.
