Unlocked galaxy note for sale

Page 2 Page 3Seller Trusted Seller Icons Seller Enterprise Power Seller Express Delivery List Local Featured List It seems the age of big phones is no closer to ending with phablet devices like samsung Galaxy Note 9 still enjoying mass popularity. One drawback with them is the considerable price tag. Samsung Galaxy Note 9 FileRelease Fact date: August 24 2018 Launch price: \$999 / £788 / AU\$1,763 Platform: Android 8.1 Oreo Storage: 512GB Camera: 12MP / 8MP Display: 6.4-inch, 1440x2960 Battery: 4000mAh Color: Copper, Purple, Blue, Black, White Read the Samsung Galaxy Note 9 TechRadarLuckily review for you, buying a SIM-free Note 9 can save you money rather than getting a contract and if you shop around you can get an unlocked handset at a fairly reasonable price. When it comes to Samsung and Android in general, you'll struggle to get anything better than the Note 9 even now with the S10 Plus out. The device has been sitting near the top of our list of best phones since its launch and it's clear to see why. The large 6.4-inch unlimited display, outstanding camera, powerful battery life, and S Pen implementation make this a brilliant device. So, if you are determined to prove the future of your digital life with the latest Samsung Galaxy phone that shines the most, then be sure to choose the cheapest Note 9 price from the comparison chart below. Team it up with a low-cost sim only deal (UK only) and you could make decent savings on the contract plan. If you look at the price and decide that you'd be better off going with a contract instead then check out our best Note 9 deals for all your options.
