## Nervo-scope for sale

NERVOSCOPE FOR SALE - MODEL ETS-6 Click to enlarge the image. 10/01/2019 Contact Roger S. Heschong Location: Washington, Johnson City, Tennessee, USA This is a Nervoscope ETS-6 for sale. I bought this scope in 1990 from the Gonstead Seminary. It's one of three that I own and I don't need it anymore. It is in perfect working order, but after you can see from the photos, at some point, it would be good to replace the thermocouple sensors. Discoloration on the body of the scope is the web waves between the thumb and forefinger of the left hand rubbed against the scope for so many years. In today's world, mobile phones, tablets, laptops, Blue Tooth systems, wireless networks, radio transmitters, fluorescent lights, etc. are everywhere. In essence, RFI is at an all-time high. As a result of feedback from the Chiropractic community, the newest Nervo-Scopes® (ETS-9 and ETS-9A) are designed to repel the influence of these sources and provide stable and accurate readings each time the tool is used. The newest Nervo-Scopes esl® have the same sensitivity as our previous models. ETS-9A is compatible with Analagraph® Graph Recorder and both models are designed to automatically come off after ten minutes. When you bought this from us Te Home/ Diagnostics/Testing Equipment/Nervo-Scope Company: Electronic Development Labs Inc. Address: 244 Oakland Drive Phone: 434-799-0807 Website: Description: Nervo-Scope from Electronic Development Labs Inc. is marketed as the number one trusted product and used by Gonstead Teachings! Nervo-Scope is designed to detect and measure minute heat differences in tissues along the spine. The tool can be used comfortably both for pre- and after-adjustment assessment. A large scale of meters with a fluorescent indicator makes even the smallest temperature changes easy to read.
