The Japanese version has Arcana in Persona 4 Golden. It shares its persona with Jester Arcana (通化師, Dōkeshi)?. Overview[edit | edit source] Like Aeon Arcana, Hunger/Lust Arcana is not found on standard tarot covers. Lust Arcana is the Thoth tarot equivalent of Strength Arcana, number XI. Lust symbolizes the danger of losing control and consuming power. The card also means strength, but power that comes through dosing. It's not true power, it's pure bliss of power abuse. The personas of hunger Arcana are all desecated or malevolent deity, which are often, but not always associated with death or destruction. Just as Himo Arcana is Voima-Arcana's Thoth equivalent, Jester Arcana is supposed to appeal to Fool Arcana, number 0. Jester symbolizes much of what The Fool symbolizes - ignorance, spontaneity and freedom - but in repressed form. In jester's case, querent is misleading and unwilling to work with others, unlike Fool, who is compatible with everyone. Ultimately, the jester behaves like a fool instead of being a genuine fool. Appearances[edit | edit source] Persona 4 Golden Persona 4 Arena Ultimix List of Persona[edit | edit source] Persona 4 Golden[edit | edit source] It didn't feel like a threat... But you don't think you can talk to Adach anymore. You feel your relationship with Adach has changed dramatically...- Narration before Arcana turns into hunger. Hunger Arcana's social connection is represented by Tohru Adachi, although it is originally presented as Jester Arcana. Social connectivity is unusual in a couple of ways, in addition to changing the meeting time twice, it stops requiring intentional meetings with Adach and begins to move forward with the story. If a player sets the link high enough and identifiesAdachi as the killer, they get the chance to reveal their suspicions or hide them. If she reveals her suspicions and later goes to face Aach alone, Arcana will reveal herself as Hunger Arcana and transcend hunger at the true end. If a player conceals his suspicions about Adach and later helps Adach dispose of incriminating evidence, Social Link is at most Jester, even if the game ends Another bad ending. The game itself considers Jester and Hunger Arcanas to be the same Arcana, so maximizing the link in both ways allows you to invite Magatsu-Izanagi, the lure of emptiness, the ultimate persona of Jester/Hunger Arcana. Persona 4 Arena Ultimix[edit | edit source] Jester Arcana is represented by Tohru Adachi and his Persona Magatsu-Izanagi.
