Afk arena fabled forest walkthrough

The Dark Forest is one of the places to go in the AFK Arena interface. It can be unlocked after completing stage 2-4. Buildings Peaks of Time Main article: Peaks of time The peaks of time has a building of a natural museum that can be unlocked after finishing 6-4 in the campaign. Players must navigate through the adventure in order to gain all the rewards, while having some adventures by completing twice with different paths. Similar to the Arcane Maze, players have the option of three relics to choose from after defeating an area in adventure in order to make evolution easier. Journey of Miracles Main article: Journey of Miracles The Journey of Miracles looks like a hot air balloon that can be unlocked after finishing 6-20 in the campaign. The Journey of Wonders acts similar to The Peaks of Time, except that the adventure must be completed within the 2-week period. After the two weeks that are done, the journey of miracles is closed indefinitely until a new adventure is released. King's Tower Main article: King's Tower The King's Tower has a building of a typical tower that can be unlocked after finishing 2-12 in the campaign. Players can fight against enemies similar to the Campaign, except that the player evolves on each floor each time they complete this floor. The Towers of Hesperia in the King's Tower can be unlocked after the completion of Chapter 14 of the Campaign. There are currently 550 floors in the main tower and 350 floors in each faction towers. General rewards include diamonds, rare and elite hero soul stones. Clan rewards include common improvement badges, emblems and hero stuff. Occult Labyrinth Main Article: Occult Labyrinth The Occult Labyrinth looks like a portal that is available after finishing 2-4 in the campaign. Players are presented with a multi-path dungeon with three floors giving maze tokens that the player can exchange in store and relics that help the player progress through the maze more smoothly. After finishing 9-24 in the campaign, players may have the option to choose a more difficult path after completing the second labyrinth boss. Arena of Heroes Main article: Arena of Heroes The Arena of Heroes has a building of a coliseum that can be unlocked after finishing 2-28 in the campaign. Players can fight against other players in the arena and can receive diamonds at the end of each day. Players can also compete in the Legends Challenger Tournament with 3 lineups in which the best may have the opportunity to compete in a place for the League of Legends. Bounty Council Main article: Bounty Council The Bounty Council looks like a negotiating position that can be unlocked after finishing 3-12 in the campaign. Players can assign heroes to individual privileges and team privileges for a certain period of time to earn gold, hero stuff, diamonds and rare hero soul stones. Abyss Abyss Main article: Abyss Expedition The Abyss Expedition looks like a sinking hole that can be unlocked after finishing 15-40 in the campaign. This is a limited event where 70 players (including some in your Guild) are grouped into a National Guard to participate in combat compositions in order to gain a space. Players can handle blessed relics using the stuff earned from each block occupied and also by winning a battle to progress easier throughout the event. During the event, players will also get specific Titles based on the amount of Searches completed. Journey of Miracles is back and offers a new realm called The Mythical Forest – and unlike the past it is less of a puzzle and has a clear path (which I'll show you below). The hardest part is getting your right team together and using the remains wisely. I have below all the steps and more tips that will help you solve this kingdom. Fabled Forest General k∓ Rewards Basically, at The Fabled Forest you need to take the right route through gates and tiles that you can only cross once to create a path to the reward area where the sweet rewards await you. It is possible to choose a path that isn't the latter, but it also offers you better rewards. If you have a stable team that works well and choose the right relics it won't be so hard to clear the faded forest ☺ what is the reward in the faded forest? Here are the rewards along some time memorabilia you'll get from the big reward chests at The Faded Forest: Now you'll get 5x Summons Scrolls, 5x Faction Scrolls and a chest of desires. The good news is you can take the breasts without having to fight your last two ????? You might remember the last kingdom in Wonder Trip, where the rewards were a little disappointing on Wishe's chest, right? This time there are some epic heroes you can choose from or 5 Faction Summons Scrolls. The heroes you can choose are: It might be better, but it's decent as well – and if you don't like the options you have you can still get The 5 clan pulls to get something else, doesn't it? Best team The special thing about this kingdom is that not every fighting camp will give you relics – there are 5 static heirloom breasts that you can get and you also have 2 Fountain of Healing on the map that you can use. No resurgence and also no mercenary camps that you can use to create a group. Your entire team will be a team you're currently using. If you have a strong strong Team like Semira, Brutus, Nemora, Liaka, Tashi, you're too good to leave and you won't have many problems. Also a team like Brutus, Semira, Belinda, Fawcks and Lucious work well here. Please, do you mind! Relics are rare in the faded forest and sometimes you're really unlucky to get them really well. I had to try it again several times until I got the right relics that made me solve this kingdom. The good relics are Deathly Embrace that will send enemies below 15% to an early grave (actually the most useful that will give you a lot of boost) and also those that enhance energy or armor. Also, powerful damage boosters are really useful. If you see that you have bad relics you can restart, do not take it until the end because it is very likely that it will fail. ... one more thing ... Repeat battles a lot if you see that one of your heroes gets down a lot or even dies! If you do the same battle as 20 times you can get very different results, so use this feature to cancel a battle before it ends and start again a lot here, this can make the difference between clearing the Faded Forest or not! Let's not pass the full detailed presentation. . Detailed Map presentation Unlike other voyages of miracles or peaks of the Times kingdoms, The Faded Forest requires a different technique. Since the remains are static rather than from fighting, you should try to avoid all the battles you don't need to take! I have here a map for you that should help you a lot. The red line is the main path you need to take. Please take a close look at the green X, are the triggers you need to use or you won't be able to build the path to the final reward island. If you take a closer look, you see that there are sometimes optional battles you don't have to do. Yes, it's a treasure chest behind it, but it makes more sense to take multiple runs here and focus on getting them on another run than wasting health and power to get them. My approach was to try to collect the Golden Chest when I saw that I got bad relics so I wanted to make the best of this run and as soon as S saw good relics on the chest I approached the final island and went for the Crystal Chests. Boss Races In the end you will have two extremely tough boss battles – but this is for the third Crystal Chest and this contains only 5x regular Summons Scrolls. Still, taking them is nice. The first is against 4 Skregs and is damn powerful! It is able to crush your first line in the seconds of the race. The best strategy does run so you can get Icebringer and Firebringer relics and run this battle again until you proccs properly. Yes, it can be frustrating, but it's the only way to do it if you don't have one of the strong meta teams. The second is against Zolrath and Ortho and it's incredibly over-level. You have to put everything you can into bringing down Zolrath first. If zolrath zolrath you will reset the whole battle and this is the point where you can't win so get everything you got against it as fast as possible!
