Similasan dry eye relief

\$ AZ-PROD-WEB02 11/16/2020 11:11:47 Simleun Dry Eye Relief stimulates the eye's natural ability to fight clear dryness and redness due to smog, stress, age, wear of contact lenses and other irritants. These drops provide a healthy relief without known side effects or drug interactions.10 mLNo harsh vasoconstrictorsGluten & dairy freeNo known side effects. Q: How often should I use eye drops? A: The recommended dose is 2-3 drops on the eye as needed. If the symptoms do not clear up after the first 2-3 drops, then it is good to add more drops until the symptoms diminish. Similasan eye drops can then be used as many times a day as necessary. Q: Do you have a drop of eyes without preservative? A: Yes, you can find disposable droppers of Similasan Allergy Eye Relief and Dry Eye Relief at a retailer near you here. Q: Can I still use the product after 30 days? A: Simalasan eye drops use a lightpreservative preservative to ensure that the product will no longer have contaminants for 30 days after opening. If the product has not been contaminated, you can continue to use it until the vial is finished. For instructions to check if the product is contaminated, please refer to our main FAQ page. Q: Can I use Similasan eye drops with my contacts? A: Similasan has officially tested its eye drops for contact compatibility. Because of the natural medicinal ingredients there is nothing in the product that will damage the lens. Drops will not affect contact lenses, however, if you have allergies or redness, it is best to avoid lenses for a while until the symptoms disappear. Allergens and irritants can become trapped under the lenses and prevent drops from work, and they should. © 1996-2014, Amazon.com, Inc. or its affiliates Receive an alert when a recall is issued. For external use only. Initial exacerbation of symptoms may occur. Use only if the single-use dropper is intact. To avoid contamination, do not touch the tip of the droplet on any surface. Do not reuse. Once opened, throw. Contact carriers: consult a doctor before use. Do not use: if the solution changes color or becomes cloudy Stop using and ask a doctor if: symptoms worsen or persist for more than 72 hours.changes in vision appear.you experience eye pain. If pregnant or breast-feeding, ask a health professional before use. Keep out of the reach of childrenIf swallowed, get medical help or contact a Health Control Centre immediately. Do not use: if the solution changes color or becomes cloudy Stop using and ask a doctor if: symptoms worsen or persist for more than 72 hours.changes in vision appear.you experience eye pain.
