What comes to mind when you think about the circle? Depending on its size, it can be a planet, a well cover, an orange, a leopard's place. and if the there are many circles of friends on the page? Depending on how they are placed, they can offer a bunch of stars in a galaxy or grape, a flea circus, or a polkadotted dress. It all depends on who makes you look. The next steps to be taken up to 100 things to do are a triangle, that is, the second of many drawing books based on geometric shapes. 100 Things to Draw With a Circle is a doodling book that frees up imagination, and inspires creative thought. Circles and other basic geometric shapes are the cores of art, these are the structures in which the shape and drawing begin. In this book, illustrator Sarah Walsh gives you a circle that appears as prompts on every page: one or many, large and small, gorgeous or not, peeking from below or acrobatics from above - you fill the rest. If one triangle offers a checker game and another snowman, one drop of rain in a puddle or another dandelion patch, the circle is meaningless until you decide what it wants to be. The simplest shapes bring you back to the basics and allow you to create everything you can see in your imagination. Abstract or real, minimal or over-the-top, there are no wrong choices in this book – and you don't have to be a drawing master. Take your pencil, see what shapes show and where your imagination leads you. *The Circle Maker For Kids* by Mark Batterson Genre: Juvenile Nonfiction Editor: Zonderkidz Release: 2013-08-06 ISBN-13: 9780310736417 Hardcover: 40 Pages Download Available Paper: macOS, Windows, Android, Tablet *The Circle Maker for Kids*, based on Mark Batterson's New York Times bestselling *In The Circle Maker*, reveals the true legend of Honi, a man whose prayers in the rain saved once again.
