Arizona Census Data Comparison Tool Mansfeld maintains two gardens with a high container bed in its inner courtyard. These beds were built by the GEMS (Girls Excelling in Math and Science) and CSGP in 2015 and are planted and harvested every semester. This garden space is also used by the SEEC programme, which has been working with Mansfeld since 2013. The SEEC program was recently working on the Mansfeld Platt Perimeter Walk located on Santa Rita Avenue parallel to the school. Mansfeld students used this walk to label and observe a number of native plant species in collaboration with the U.S. National National Fenonoly Network. Our main contact at Mansfeld is sixth grade science teacher Susan Sumner. The students here are doing above average year-on-year academic improvement,... Moreover, this school has below average results in how well serving disadvantaged students, and students perform approximately the average on state tests. Students at this school are making more academic progress from one class to another compared to students at other schools in the state. Parent type Test scores at this school are about the same as the state average, though still below the best performing schools in the state. Because test results in some states are so low, many students at this school cannot perform at the level of the degree. Parent Tip Do you notice something missing or confusing? Equity disadvantaged students at this school may be behind with other students in the state, and this school may have significant achievement alafaters. Parent tip Results students of the Academic Progress Low-income and sub-substance students All other students in the school environment Thank you for submitting a rating for!
