Product family #: 2198143349 Videos (1) 7, 'is-singleoption': selector.filterGroups.isSingleOption() }&gt; 7, 'is-singleoption' : selector.filterGroups.isSingleOption() }&gt; Questions? Helping! Chat Now E-mail friend lasermax driver rod laser sights GLOCK Gen4 pistol will give you the additional comfort of laser sight without external additions to the gun. Unlike all other laser sights, the guide rod laser is completely internal and simply replaces the factory guide rod and take off lever. The driver rod detection system does not need to replace the holster, remove the tactical lights or grips, because the laser sight fits right into the current setting with no gunsmithing required. Not only are these units comfortable, but they're reliable and made with high-quality material and Wolff Gunsprings, so you know you're getting the best. LaserMax's leading rod laser has been torture tested with military and homeland security specs, including: Blowing sand tests saltwater corrosion test 5-story drop concrete Extreme temperature 2 hours saltwater submersion @ 66'20,000 round live-fire test If you want to give added confidence to the pulsating red laser sight, the LaserMax guide rod lasers will ensure you get exactly that. On the flipside, if you don't want to get away from your position or just don't want the laser at the time, the guide rod lasers aren't in the way and are easily turned off by both right and left-handed shooters with am two-handed switches that replace the factory slide lock and spring. Note:Special fit Glock Gen4 Models Laser beam diameter: 5/16 @ 7yds, 3/4 @ 25ydsFactory detected 20 yardActures are NOTE: Prices, specifications and availability are subject to change without notice.
