SUSHI SCHOCK A gift made in memory of Sushi Schock. Sushi was a white toy we adopted, who died at age 14 in November 2020. Jerry, his adopted mother, gave Sushi a good life. They love each other and have kept each other's company. Before that, Sushi came to us, they bought it like a pup by its former owner for their daughter. When the daughter went away from college, the former owners did not want to take care of Sushi and brought him to the green and said: 'He lived long enough.... uthanize it! The green wouldn't and had the people sign Sushi on to get him a dental meter the former owners never gave sushi as well as several extraction teeth and vaccinations. The green then called us and asked us to find a good home for Sushi..... and we did. Sushi, you were a very good girl at all times and everyone loves you. You won't forget, Sushi. Fly with angels and be free and at peace Sweet Girl.PATSY FORSYTHE A donation was made by Stacy Duran in memory of Patsy. Larry and Jane Forsythe if Riviera Beach, FL, lost dear standard girls named Patsy. Patsy was born December 18, 2010. He was a fun tipup and grew up to be a mature, working loving family member. He was a coach with Certified Support Emotional Support. He never left their side and was still up for a ride on Larry's personal mobility scooter. Patsy was a joke, fun love, and always screwed please. He was clever and had common sense. It seemed to understand English better than they had anticipated. Larry would say, Patsy, go get a drink of water, and she would go to get a drink of water. Throughout the years, they've had Pety homes she's never had an accident. He had to bell ring doors when he had to go outside. It would be pee on order when we were out, at an airport or other public facilities. They've never had such a love, natural math dog in their lives. Patsy loves kids and has always been up for fun with them. He was good and strangers, although safe. They lost Pety this year due to lung cancer. They miss him very much. Patsy, must be pain-free and robbed with the dog angels and don't forget to visit moms and dads let them know you're okay... a nutrient signal or another signal. Joker was a beautiful poodle standard silver boy. He was described by people in his veterinary clinic as one in a million dogs. It was that and more. A champion of compliance with obedience dog titles, she spent part of her final years as a nose job student. He quickly mastered the nose test at age 12! Joker was majestic, noble, and possessed a very special and indefinite quality that pierced him to all he met. He was loved by so many people. My favorite memory of Joker is to him standing, regal and beautiful as always, looking at Sheila. His bright eyes are radio and pure love. That love returned. Every moment throughout his life brought joy to Sheila. Gaia O'Hanlon/Williams A donation was made by Mike and Jorjana Marx in memory of the 14-year-old 14-year-old Gaia, who was part of Kathleen O'Hanlon and John Williams. Gaia was beautiful, exuberant, dominant, sweet, and faithful. It is called canine-human. Her personality was so complex and her mind so big that it was like having someone else being in the house..... only the best, because it was completely creatures, and dogs of the earth. Gaia was behind the Greek idols on earth and Gasi was the Earth's gods. It was majestic and regal one moment and rolled into the grass and barking at the next squirrel. It was made that Kathleen and John are bigger and deeper with their attention to the moment featuring more important, connecting, and sharing with her. They have great gratitude for his life and for all the ways he has changed them. Gaia will continue to live in and through them. They began the process of making a memory book over the 14 years with Gaia, focusing on how she always lives in their hearts and memories, rather than focusing on the huge holes she left in their lives. This person had the honor of knowing Chelsea for 9 years, working with Chelsea initially across the animal hospital where she worked with Chelsea's later as she sat. It absolutely broke that she knows she will never get to take care of Chelsea again, to watch her prans around and play with her favorite toy cord, hear her hard girl bar at the door when she came over, but she knows Chelsea was and she will stay very loving and remember. This person would like to extend her gratitude and ella's own gratitude to everyone who strives to take care of those special dogs who only crave family and affection. They may be asked at times and often too smart for their goods, but they are the most dedicated and faithful companions anyone could ask. Flirt with Jake in memory of Flirt and Jake. Both seniors feeling standards came to us after property owners died. Jake and Flirt were inseparable and were with us for about 8-9 months. They always knew where the other one was. Leakage suddenly died near Graksgiving 2009 and Jake started grief for his flirt. Jake died in two weeks later 12 December 2009, seemingly into a broken heart..... His first human mother died, then his precious flirt died. Flirt is the dog on the right and Jake is the dog on the left in the picture above. Both dogs were wonderful and very behaved. They were taken in by Georgia Poodle Rescue because human mothers passed away and the remaining family could not care for So they called Georgia Poodle Rescue to take them out. Though Georgia's Poodle Relief Budget was very low, Georgia Poodle Relief still provided care, love, and affection for Flirt and Jake. Both Flirt and Jake will always remember; Flute with his meek presence, running him with his beautiful ears flying in the wind, with his flititious eyes and smiles; and Jake with his big puppy-dog eyes, gentle, happy and exploring nature and running through all the time so fast it looked like he would fly. Walter has brit briskly suffered and undernoured, with a very matching slip dress, and systemic infection. Walter did not survive. May Walter rest in peace. Cuddles Cuddles crosses over in June 2011. She was a toy-sized, very loveable and sexy malt-poo girl, approximately 3-5 years old that we rescued from a rural rural control facility where her former home owner dumped her. It appeared he was tired over and over, given poor nutrition with no or improved veterinarian care as he had great hemorrhage building on his teeth and advanced periods We planned spy Cuddles and tidy and most likely pulled a lot of this little girl's teeth to bring her back to health, however, it was too late for this sweeter soul. We'd built his immune system before teeth appointment, however, the Cuddles began rapidly losing weight. We carried her for further tests and determined that she was advancing cancer with many large tumors enveloping her liver and her stomach area. It was in pain and our green recommended the kindest, most of the human things to do. She broke our hearts that like a sweet girl was just using rose, she tossed like trash after she didn't have a use as a craved dog. No rename would do that. No rename would just throw the dogs into animal control but it would vette them. Cuddles aren't in pain and we've done the past three weeks of his life comfortable, where he's spread and loved. Your cuddles are a good girl and we will miss you. Frisco Frisco crossed more than 1st July 2011. He died in his sleep and went peaceful. He came to us very big, a lbs of 28 lbs, and we were able to reduce his weight to 18 lbs. He was an older and sweeter man who came to us because his former owner, and elderly woman, developed Alzheimers and entered an old house. Frisco received much love, proper nutrition, exercise and played with all the dogs and cats while here. He was a happy man. The woman didn't want to take care of Frisco so asked if we would bring her to our program. We will miss pretty little Frisco. Frisco.
