Sebecarnya zvon mobile version of joc from South Coreea itself has been heard since a few months ago. For its own mobile version, this joc by IMC Games and Nexon. They use the same costumes, worlds and sprite systems. For the background the story is still the same. Telling the adventures of the rescuers to save their world called the Kingdom. It is believed that the goddesses will come to give the world prosperity. But what appears is a mystical tree called the divine tree, where flowers turn into monsters that destroy the world. Four more years, there was a dream in which the goddesses returned and brought peace to the Kingdom. For the mobile version of the Savior's Tree, it still features a memorable early town, Klaipeda. In the meantime, players will create their own characters with four initial jobs to choose from. There's Swordman, the swordsman, who could be a tank or a DPS. Then there's the Wizard who uses magic to defeat his enemies. If you like to attack remotely with arrows, then Job Archer is also available. The last is the Cleric who uses magic to support his friends. As for the game, use the action game controls in general. The character's navigation controls are on the left, while the buttons to attack and use the skills are on the right screen. In the game, players will receive quest banya from NPC, finish monter and boss Join GroupTree of Savior Mobile Remake Indonesia 16-11-2016 05:22 Changed by riandic7 16-11-2016 05:34 Show the contents of the thread 03-01-2017 17:57 ninggalin traces used to be the same, wait for the global version nyaa 03-01-2017 17:57 Activist Kaskus Posts: 707 while waiting worldwide na aja dah, yg pc seglnya bgus cma da lag na plus bugs.
