Of mice and men audiobook chapter 3

The star's 4-page test number includes: 8 question matching characters, 7 sequence of question events, 10 multiple-choice questions and 3 short answers. This number of test stars includes the answer key as well! The test includes 50 possible points. I recommend giving this as an open-book test so students have the opportunity to go back and check their answers. I believe these are reading skills of understanding, not memory! It's also a great way for students to practice rereading and skimming for important details! Looking for another appreciation of the novel?
