Star wars shaak ti age

From Star Wars: Omens MUSH Wiki
Unity wins the war. Identified as a sensitive force as an infant while in Shili's hometown, Shaak Ti entered the Jedi Academy and spent decades training and studying the Jedi Code. After overcoming his trials and rising to the rank of Knight, Togruta cunningly pursued the path of consul and served as part of the Council of Reconciliation. During this time, she returns to her homeland to discover her origins, undergoing the traditional togruta ritual of killing a wild Akul beast. She fashions a hat of its teeth and wears it still. In these early years it was when she also brought her first students and trained him on her home planet. She taught him until he was raised to be a Knight. And then he was killed by a criminal on one of his first missions. Shaak Ti felt this was a heavy defeat on her part, but was heeded by a second student - Fe Sun Initiate - as her padawan. Fe Sun is also trained by Shaak Ti on Shili instead of following a process of accepting missions from the Jedi Council, and Sun is also raised as a knight. Sun was also soon killed by a criminal: Lyshaa. While Shaak Ti personally hunted down Lyshaa and found her imprisoned, this did not prevent some members of the Jedi Council from questioning her unsctidy training methods. Shaak Ti, meanwhile, deals with her grief over the death of her student and her part in it in the most honest sign of a Jedi: acknowledging it and then quickly di separating herself from it. Despite two setbacks, Shaak Ti continued to serve the Society honestly on many missions and was eventually recognized as a talented Jedi by the Society and elevated to the rank of Master. When Master Yaddle died, Shaak Ti was nominated to serve on the Jedi Council as a term member and she accepted the honor. She was stationed in Coruscant when the plot to assassinate Senator Amidala occurred, and spent time in the research archives after the attack. She was also present at the Battle of Geonosis, the battle that began Clone Wars. When the war began, Shaak Ti realized the desperate need for more Jedi Knights than actually existed. Consequently, she proposed the resuspation of an ancient practice of war-time promotion, through trials. But even with his desire to see more knights grow up, Togruta was heeded to allow Anakin Skywalker to be raised at the request of his master without the Court of Gods. Two months after the war, she helped Master Yoda lead an attack and took an Outer Rim planet in the name of the Republic. And then, as the war continued to grow, she accepted her latest mission and its most important reason to date: protecting Kamino, including protecting invaluable counterfeit production facilities and monitoring Train the soldiers there. Their personalities are beings, not objects. Shaak Ti is a Jedi Master who is known for his cunning in battle and strategy, but also has a serenity and possesses himself differently. It was the second thing that motivated her, which made her like to observe before speaking and speaking before withdrawing the sword. Her humor is a subtle one, and most miss it altogether and believe she is cold and emotionless. This was not helped by her less reassuring smile. Deeply revered by the Jedi Code, and also for the inland value of all life, Togruta has earned herself the deep respect of the original soldiers of the Grand Army, making her a welcome addition to the copy base on Kamino. However, contrary to the general tendency of the species, Ti enjoys activity in loneliness. While she reveres tradition, she is not a slave to it. She is known for being uncomposed and practical, as seen with the training of her alumni, with whom she trained in reclusive shili.
