Palestro1.0 out of 5 starsI would not recommend this seller at allForeported in the United States on April 12 , 2018Product was not new as ordered, it was used. It has scratches and folds around the edges where it was previously stretched on the frame, including one large scratch towards the bottom that could not be hidden stretching around the visible edge of the canvas. There were also a few dark pet hairs on the back, we don't have pets, hairs came with an order (is that what I paid so much for?). Very disappointing to say the least. That should be half the price, if that. I do not recommend this seller at all. Terrible. Wall art doesn't have to cost property, or it's hard to make up for the walls. Each wall is a blank canvas for your home more personal. Whether it's modern art, nature, or a collage of your favorite objects, it's a gallery just for you. You.
