The cost laboratory earns commissions from purchases made using the links provided. When people use the phrase smart houses, they often refer to home automation. That is, when homeowners buy various products that can perform tasks independently. For example, control lighting, temperature, entertainment systems such as music and television, as well as devices such as coffee makers, dishwasher and refrigerator. Often all these controls one central hub that users can access from their mobile phone, computer, or tablet through an app or voice-activated one. Those who want to start building their own smart homes can start buying items like the Wemo Insight Smart Plug, which allows users to control lights and devices or the Lorex security system that works with Amazon's Alexa. Alexa. Google Assistant. Many other brands offer smart home products including SmartThings, August, Ecobee, Blink, Honeywell and TP Link. Why is Black Friday called Black Friday? The weekend after Thanksgiving day was traditionally a period when retail stores would offer big discounts on items to welcome christmas at the beginning of the shopping season. The increase in sales retailers received from The Friday after Thanksgiving was enough to put retailers in the black, thus forming a Black Friday basis.
