Dad and me in the morning

Read along with author Patricia Lakin on this episode Read Aloud on Governors Island! In this perfect picture book for the summer go on an adventure to the beach and get ready for the cold ocean water! We recorded this episode of Read Out Loud on location during KidLit TV Children's Book Weekend at Governors Island in a house built in the late 1800s! The military facility on Governors Island was known collectively as Fort Columbus, and in 1878, the families of the officers began to move, and resources such as a movie theater, YMCA, an officer's club, a public school, and three chapels were built. This house is located next to the Admiral House in Nolan Park. Like? Attach it! About BOOK Early in the morning the boy wakes up to his special alarm clock. He puts on hearing aids and clothes, and then goes to wake his father. Together they brave the cold as they walk along a dirt road that leads to the beach. GOVERNORS ISLAND Governors Island is located in New York City, just a short walk from Lower Manhattan and Brooklyn! You and your family can go to Governors Island by catching a ferry this summer. About PATRICIA LAKIN Patricia Lakin, a former elementary school teacher and award-winning author, has written more than fifty published papers. Her books, both fiction and non-fiction, cover several age groups, from toddlers to middle classes. Patricia lives in New York with her husband Lee Koenigsberg. Knows Best - Read the Book That Shows My Father : Read the book that happens in one dayRead year: June - Take a book that delves into the experience of fatherhood, delves into the experience may be a stretch, but I liked that this simple story of a father-son sunrise outlet showed the importance of these tender, quiet moments of fatherhood. The boy is deaf, and the story also explored nonverbal communication. This is a short, quick reading with beautiful illustrations. It's well worth checking out, especially if you're looking for a story about a father-son connection or a representation of a disabled child in a supportive home. ... More than March 3, 2020 Cassidy McCormick appreciated it was amazing This story about a deaf boy and his father. It shows different ways of communicating. The couple wakes up early in the morning, quiet so as not to wake anyone else to go see the sunrise. They sit together near the water and watch as the sun changes the colors of the sky. Family themes and disability.★★★★ I really love that this book shows how deafness doesn't make you an outthuff. There is still a normal connection between parents and children. It can also be used for young or older children. I revisit this story about a deaf boy and his father. It shows different ways of communicating. Although the main character was deaf he did not take away from the relationship and communication between them. The storyline was a bit deep, but I think the kids will still be able to follow along easily. I thought the author did a very good job of describing how the two can communicate from signing up to lip reading and touching. I thought the author did a very good job of describing how the two can communicate from signing up to lip reading and touching. The illustrations were also very bright and intense and used colors and in incorporating them into the story. It's a nice story that I definitely recommend. ... more This story is about a father and son who sneak out into the night to watch the sunrise together. They both love to sit outside and absorb the whole nature around them while they wait. My son has hearing impairment, so he has special signs and signals that they give to each other. It was a very cute little story with big photos. June 25, 2020 Jessica appreciated it very much like this book is very sweet and a little mysterious. I love illustrations. I like that the author jumped right into the conversation of the two characters without explanation, but I'm not sure that all readers will understand the uniqueness of communication. The vocabulary was wonderful. This story is about a boy and his father. They go to the beach to watch the sunrise for the first time. It's a simple story about this particular experience that I think any family can relate to. The thing that pushes him from three stars to four is how the deafness of the boy is handled. The author added details so that it is clear that the boy is deaf (although it is not clear if his father.) The deepest explanation is the line: Dad and I have many ways to talk to each other, such as signing or reading or just shaking hands. This is our secret signal. Illustrations are beautiful watercolors and background for text. The photos are soft, muted and attractive before sunrise. Then, they're bold and orange - just like the sunrise should look. Overall, it's a beautiful book and worth reading, but not that I'll be back again and again. ... More This book works very, very well on many levels. The illustrations are absolutely gorgeous watercolors that really add to the quality of the story. The story itself is remarkably touching, the boy and his father get up early to watch the sunrise, and while it's not too sentimental, it's great to see a father-son story where the characters are obviously close. In the added to this, the son of the deaf, and instead of it being ignored in history or becoming the focus of it, this is just a part about this book working very, very well on many levels. The illustrations are absolutely gorgeous watercolors that really add to the quality of the story. The story itself is remarkably touching, the boy and his father get up early to watch the sunrise, and while it's not too sentimental, it's great to see a father-son story where the characters are obviously close. In added to this, the son of the deaf, and instead of it being ignored in history or become the center of attention, is just part of it, including details such as light alarm clock and lipreading and signing when they are appropriate. It is a book that treats a deaf character as a person without hiding that he is actually deaf. It's cool. ... More than June 02, 2015 Lindsay appreciated it liked This book about a deaf boy who wakes up early in the morning to go to watch the sunset for the first time over the ocean. They go to the beach and see a few different animals. This boy explains how he and dad communicate and talk to each other, signing, squeezing each other's hands or reading each other's lips. This book had beautiful photos depicting the beach and sunset, with lots of bright colors that are associated with sunsets. I think I would use this book to explain this book about a deaf boy who wakes up early in the morning to go watch the sunset for the first time over the ocean. They go to the beach and see a few different animals. This boy explains how he and his father communicate and each other, signing, squeezing each other's hands or reading each other's lips. This book had beautiful photos depicting the beach and sunset, with lots of bright colors that are associated with sunsets. I think I would use this book to explain to children how some people can't hear well, so they need to use their other feelings much more and they can communicate even if they can't hear or speak very well. Then I would teach them some basic sign language to express what they think or feel. ... more Lakin, Patricia. Dad and I are in the morning. Open Road Media, 2014. This is a story about a boy and how he communicated with his father. he detailed a special moment that he likes to share with his father. Unfortunately, the book was not written very well. The morale was great, but there was a lot of text and illustration little to effectively interact with the overall message of the story. More 06 December 2014 Muhuawu Wu added his early morning boy sneaks into his father's room and wakes him up so that they go to his special place to watch the sunrise over the lake. The boy is deaf, but has many ways to communicate with his father. They have an unusually strong father-son relationship. The illustrations are beautifully done and show acceptance of other ways of communicating. I highly recommend this book to children between the ages of 4 and 8. The simplistic notion that people are different from each other (people with disabilities) has been delicately embraced. ... Sep 11, 2010 Marie appreciated it was an amazing exquisite, intimate story of her father and son, going to watch the sunrise on the beach. Very gently. My son has a hearing problem: My father and I have many ways to talk to each other... Reading the lips helps them to get out of the house, so that no one else wakes up and does not want to come. Although the deterioration of the boy brings details to the story, it is primarily a story of special joint experience between father and son. Although the story is sweet and simple, and the watercolor images are gorgeous, this book doesn't quite meet my expectations for teaching my students about different abilities. I liked the slight mention of the main character's hearing aids, and his ability to lip read, sign, and use special cues with his father, but I was hoping for more. I still think this book can be a good starting point to open up a discussion about different abilities. February 16, 2014 Katie McMillan rated it was surprisingly early in the morning when it was still dark, the boy wakes up with his special alarm clock. He puts on a hearing aid and clothes, and then goes to wake his father. Together they go down to the beach. Jacob can't hear, so he and his father sign either on the lips or just squeeze each other's hands. This poetic story is beautifully illustrated by glowing watercolors. April 3, 2013 Cheryl appreciated it liked It was a good book with a normal story about a child with learning difficulties. Although the child wore hearing aids and used sign language, the story was about going to the beach to watch the sunrise. September 15, 2008 Judy appreciated it was amazing to recommend it for: Parents of young children, young children who is a gorgeous children's book about a deaf boy and his father as they go for a morning walk. Watercolor illustrations are beautiful enough for the Caldecott Medal (in my humble opinion). Oct 02, 2008 Mora added that this book is good for preschool and kindergarten. Mssage is guided into the fact that everyone does different things in the morning with their parents. I would use this book in my class.
