But unlike the temple race, the obstacles here are related to the subway such as trains, walls, cones, etc. You also have to pick up coins and power-ups to which gives you a temporary advantage in the game. The goal of the game is simple, try to keep running as long as you can! But it's not the simple one. As you keep running, the pace gradually moves until it is too fast for you. This is what makes this game so addictive that you are trying to break your record and others around the world. Do you think you have what it takes to be the best runner? Subway Surfers has so much more to offer than just endless racing. After all, it couldn't have achieved such massive success if not for its endearing features! So what separates this game from so many imitators? We will dig in: Various characters - At the beginning of the game, you can only play the main protagonist - Jake. Jake is a cool but nasty kid who is regularly caught in some kind of mess. Together, he and his friends try to have fun and escape the authorities in this game. His friends are Tricky, Fresh, Spike, Yutani, Frank, Frizzy and many others! Collect them all to get different types of play styles and costumes. You just need to swipe left, right, up and down to maneuver your character. You also just need to double tap the screen to activate your power-ups. That's how easy it is! In this game there are tons that you can use throughout the race. You can take sneakers that will allow you to run faster. Or the magnet that will allow you to pick up all the parts in your environment automatically for a while. But perhaps one of the coolest of all would be the jetpack that allows you to fly in the sky and collect coins and power-ups in there too. Impressive graphics - This game offers great 3D graphics at the time and it still holds up well today against most games. The characters are well designed with kindness in mind and landscape and obstacles all seem compelling. Also, did we mention that the only police officer who is prosecuting you has a dog? It seems realistic and Also. So do your best to overtake them! Multiple locations - Even though the main theme of this game is the subway, the developers do a good job of changing location from time to time. With each update, the location of the subway changes as well as the main elements of the game. This allows the game not to be boring. In the current update, the game takes place in Paris. Paris. Endless runner game can seem like a fun and casual game to pass the time. However, many players take this seriously in order to get out at the top of the standings. However, this is not possible at all times when every lap you do are full of obstacles. That's why every time you see a train, try to get on them as much as possible because they offer temporary relief from obstacles. Also, when you see jetpacks, get them at all costs because when you're in the sky, there are no obstacles at all! Remember power-ups - In this game, you can't just choose a power-up and expect it to work perfectly well every time. When you encounter an obstacle using an obstacle, you will lose them instantly. So it's important to know what each power-up does. There are power-ups that fly you through the air and there are others that allows you to jump super high. Anyway, the key to using it effectively is to know what it does. Watch videos - Coins are your best friends in this game as it allows you to unlock characters and so on.
