How to get to sootopolis city from mossdeep

Quite a large Sootopolis City is quite large and shaped like a ball. To the west of the city is PokeMart and some buildings. To the right of the city is the center of Pokemon and some buildings. There is a gym in the center of the city. What you want to do now is go from the PokeMart side (west) and go north of the city. There you'll meet Steven and his friend Wallace. Wallace is also a Gym Leader. They'll take you to a cave known as The Cave of Origin. Location (Sootopolis City) Gyarados Magikarp Tentacool Groudon / Kyogre You will need to use Flash to see more screen. As you walk deeper, you encounter a fog, and then HM 07 - Waterfall. Also as you go, the legendary monster roars again and again, rumbling the cave as it is. In the last room, you meet the creature in your version, Groudon for Ruby, and Kyogre for Sapphire. Go near them, and your orb will glow, and Pokemon will battle you! They are lv. 45 and are quite strong. I suggest you don't use your Master Ball for it because there are more legendaries later in the game. First save the game so you can always try to catch it again if you messed up. Try to put it to sleep, or get its HP real low. Then throw an Ultra Ball. After you catch it, get back out. You will find that the world has been restored as it used to be. Location (Ala origin) Golbat Mawile Sableye Zubat Now go to the Pokemon center, and heal your Pokemon. Then go into the house right next to that Wailmer Doll. After that, surf across the water to the other side. In one of the houses there, Blackbelt will give you a TM 31 – Brick Break. Finally, it's time to get your last badge. Surf to the sports center in the city center, and get ready to rumble! Final Badge Steven will talk to you first, and then fly away. Go inside the gym where your final sports battle awaits you. This gym is filled with trainers with water Pokemon, and a hard ice puzzle. Walk around on ice, you have to touch every part of the ice (make it crack) with your feet just once, or you fall to the room below where many coaches are waiting for you. To get through without falling, please post this guide when you touch the first piece of ice, and save each time you complete the puzzle: 1 step right, 1 step up, 2 steps left, 1 step up, 1 step right, and climb the stairs. 1 step up on the ice, 3 steps left, 2 steps up, 2 steps to right, 1 step down, 3 step right, 1 step down, 1 step to right, 2 steps up, 3 steps to the left, and climb the stairs. 1 step up on the ice, 2 steps to the right, 1 step up, 2 steps right, 1 step down, 1 step right, 3 steps up, 2 steps left, 1 step down, 1 step to left, 1 step up, 1 step to left, 2 steps down, 2 steps left, 1 step down, 1 step down, 1 step left, 1 step up, 1 step right, 1 step down, 1 step up, 1 step up, 1 step right, 1 1 down, 1 step to right, 1 step up, 1 step to right, and climb the ladder. After all, you can battle a sports leader. He's Wallace, and you just met him some time ago. Now you're going to fight him for your last badge. He has the following five Pokemon: lv. 40 Luvdisc, lv. 42 Whiscash, lv. 40 Sealeo, lv. 42 Seaking, and lv. 43 Milotic. The last Pokemon, of course, is the hardest to win. Milotic knows to recover, so knock it out quickly! After winning you will get TM 03 - Water pulse and Rain emblem. Now all Pokemon will obey you, and now you can use the waterfall outside the battlefield! Leave the gym simply dropping over the ice. You did it. You have traveled and collected all eight sports bagdes. Your destination now is pokemon leagues ever grande city. Leave Sootopolis City with diving in the dark waters south of the city. Get out of the small cave, and rebuild. Go east, and then south on Route 128. Route 128, 129, 130, 131 How to go south to the destination, you will notice a lot of patches of dark water. Dive down when you see one, because there just may be an item underneath. The protein seen on the left side was found diving into a dark patch of water surrounded by white-colored earth. You go south for quite a while. When you reach Route 129, start going west. Go west of Route 129. You'll meet some trainers, continue route 130 and find the Sky Pillar in the middle of route 131. Here you can try to catch the legendary Pokemon Rayquaza. The Sky Pillar will be open to you only after defeating Elite 4. Sky Pillar Sky Pillar is a kind of secret tower in this game and contains a vicious looking legendary Pokemon. Enter the beer and go into the tower. The first floor is quite simple: just walk the stairs. On the second floor on the floor there will be cracks. Use your Mach Bike to get past it. On the third floor there will be two stairs. Take one to the right to get to the fourth floor. This is the tricky part. The cracks here are hard to get through because you need to cruise with each of them on your bike in one go. If you stop, the bike will lose it's momentum and you drop down. Go to the middle of about where the area of the middle stairs on the previous floor, and drop down. From here, just find your way to the stairs, and everything will have to work fine. That is, until you reach the sixth floor, where the legendary Pokemon are waiting for you. This is en. 70 Pokemon: Rayquaza. This is a Dragon/Flying type, and will knock your Pokemon out of real fast if you're not careful. Also known as Sky High Pokemon, Rayquaza is the strongest Pokemon in the game (almost the equivalent of Mewtwo Red/Blue/Yellow). So you better watch out because you have a deadly dragon on your hands. Logs Pacifidlog Town is a strange looking place. It has some houses flying on the water associated with logs. Not The real significance of this city until later in the game when you need to fly here. There is no point in going to the next routes, which are also known as ocean currents. When you go here, it will automatically move you. You won't have to go here until later in the game. Now you can Surf east on Ever Grande City. <Previous next=>> Page 2 Battle Tower As I'm told you've almost finished the game. After all the final credits, you'll be back in your room. Go downstairs, and your father's going to give you an SS ticket. Now fly to either Lilycove or Slateport City, and look for docks. Talk to the woman, and she'll ask you where you want to go. You will have two choices: going to the opposite dock (either Lilycove or Slateport, or battle tower. You might want to go to a battle tower where you can battle trainers to get cool items. Latias and Latios Now, once you beat the Elite Four, you'll be able to find Latias (Sapphire)/Latios (Ruby) in the wild. It's like three legendary beasts from Gold/Silver/Crystal, except there's only one. Now is the time to put master ball to use, because if you see it

and lose it, it's hard to find it again. However, you can still find them because when you see Latias/Latios, you'll be able to track them in your PokeDex. Back to Meteor Falls you can also go to Meteor Falls, where Dragon coaches train. Surf to the waterfall, using the waterfall, and look around. You will find TM 23 - Iron Tail. After seeing an old couple with a tough Pokemon, head all the way north where you'll find Dragon Tamer Nicolas. Hop down the steps to the left now. But before you reach the end, hop left again to reach the ladder above the body of water. Then go down the stairs and surf north. Enter the entrance and continue surfing. You will find TM 02 - Dragon Claw here. In this small room, you'll also find Pokemon Bag. Beldum After beating the league, you can also get a free Beldum from Steven in his house. Fossils Here's one last thing to do. If you had gotten Root or Claw Fossil as mentioned above, you'll be able to get Pokemon. Go to Rustboro City, and go into Devon Corporation, a large building. Go to the second floor, and talk to the scientist on the bottom line. He will take your fossils and be able to resurrect it. Do some more exploring somewhere else, and come back here after some time (make sure you have an empty space in your part of Pokemon), and the scientist will give you either Lileep on Root Fossil, or Anorith on Claw Fossil. <Previous Page 3 Lilycove City Heal your Pokemon at the Pokemon Center, and you'll find your rival in front of the Lilycove Department Store behind the Pokemon Center. After beating her, go to the Lilycove Museum, and talk to the old man blocking the staircase. It has 5 floors full of objects and a roof with vending machine. On the ground floor, you will be able to get a free lottery ticket once a day. If the ticket number matches your Pokemon ID number in a certain way, you will be eligible for a prize. To the right of the store is Move Deleter's House. Here you can delete unwanted moves, and even HMs! Keep on going well and talking to the old man. He'll give you Pecha Bay. Go downstairs, and you're standing outside to the house with the old man. Talk to the only person inside, and he'll give you a TM44 - Sleep. After all this, leave the city through the western exit. Continue to go west until you reach the dock. Mt. Pyre and Route 122 Surf east and then south. You will soon reach Mt Pyre. Talk to the old ladies to get a Cleanse Tag. Pokemon holding it will ward off wild Pokemon. Go up the ladder to battle all the trainers, and get all the items. Go down and go out the exit to the left. You will see Itemball and it contains TM 48 - Skill Swap. Climb all the way to the top. As you climb, strong fog comes out. There are many tombstones with hidden objects so you can try to look for someone. Also as you go up, you will battle Team M/A members. Talk to the leader, and he'll leave. Here's the story. For Mt Pyre, there's red orb and blue orb. One is taken by Team M/A, depending on your version (Ruby: Blue Orb made; Sapphire: Red Orb made). The old lady will give you a second orb that is not accepted. Now fly to Slateport City. Stolen submarine! Go to the shipyard with a whole bunch of people around it. Talk to the person blocking the door, and he turns out to be Capt. Stern, and is interviewed. While your talking, you hear Team M/Talk through a megaphone. They're trying to steal a submarine, and you're going to have to follow Kai. PokeBlock Case Now head over to Contest House in Slateport City. Talk to the little girl inside, and she'll give you the PokeBlock case. Now you can mix the berries and get into the Safari Zone! To try it out, go to berry blender, where two people are standing side by side. Here you can make PokeBlocks. Here's how to do it: When you arrow comes to your marker, just press A. Yep, it's that simple! After that, PokeBlock is made! To feed PokeBlock to Pokemon, open it in the bag and select the PokeBlock you want. Now fly back to Lilycove City. Route 123 This is an optional route. That means you don't have to go there. It is on Route 123 and is located south of Mt. Pyre. When you get there, cut the tree to the right. Go up to fight the coach, and then go down to the rare candy. Go west, then north, cutting down trees. There will be an empty space in the hall. Press A and it turns out to be super repel. Just below it is Elixir. Then the road splits into two, and eventually comes back as when you reach a small house. This is the house of Berry Master, an old man who will give you Magost Berry and Grepa Berry if you talk to him. Talk to your wife, choose a name, and she will give Sitrus Berry. Next to their house there are different berries for you to take. After walking a little more, you will reach Route 118. Now fly back to Lilycove City. Team M/A's Hideout: Pretty puzzle make sure you heal your Pokemon first. Then go east of Lilycove City, and you will soon reach the beach. Surf north from there and you'll find a cave that turns out to be Team M/A's Hideout. The member will take you after walking a bit. Go into the entrance, and you will see two white circles. Take the right one to get Max Elixir. Come back and take the left. Keep walking, and you're going to fight two players. Then go all the way west to the white circle below it that just came in. You will see three laps here. This time it's a battle. Go to it on the left. Then go again, then again. When you get the last row at the bottom, go to the circle on the left. You will be taken to a room with four Itemballs. However, the first two items are actually lv. 30 Electrode. The other is nugget, and then comes the thing you've been waiting for. The second item is Master Ball! Now you can catch any Pokemon without any effort. When you get all that, go back north using the same kind of pattern, and go to the room with two trainers again. Go to the circle on the right and go to the entrance. You'll see a dick running around, so fight with him. Go to the circle at the bottom, get a nest ball, go back and go to the circle to the right of the room. Go upstairs now and you will be challenged in battle right after walking a few steps. Take just another entrance, fight a member, and take just another circle. Here you will see admin security underwater. After beating him, the submarine will leave, and you will need to leave well taking the bottom of the circle. After coming out, you will notice that all team M/A people have left so you can go east on the sea route route Route 124. And route 125 These two routes are realistically short. All you have to do is hold on east, and before you know it, you will arrive in Mossdeep City. But when you get there, don't go to the ground. Instead, go north after hitting Route 125. Shoal Cave There, you will find Shoal Cave, and two girls are standing by it. Go, surf and get into the entrance. As you surf, you will see a blue object. Pick it up and you'll find that it's a Shoal Shell. There is another Shoal Shell nearby. Continue, then left, and then down. You'll find Itemball with rare candy. You also have two more Shoal Shells. Go straight down after getting second and you Big Pearl. If you bring the old man four more Shoal Surf, he'll give you a stoal bell. Now you can get out of here and go back to Mossdeep City. <Previous next=>> Page 4 First City After a trip north, you will arrive in Oldale Town. It's a small but peaceful place. When you enter Oldale Town, you'll notice the person standing between the Pokemon center and another house. Talk to this person who turns out to be a PokeMart store owner and he'll give you a free Potion. Next, heal your Pokemon at the Pokemon Center (tagged with your computer) and go north to Route 103. If not, go here, battle en. 6+ wild Pokemon, heal your Pokemon at the Pokemon Center, and head on. Rival Route 103 is a dead end. At the very end of this route, you will meet your competitor. Talk to your rival, and she'll fight you. She has lv. 5 Pokemon which has the advantage of type over you. For example, if you use Torchse, she will use Mudkip. If you trained your Pokemon well, then there's no problem. Hit her, and she'll leave. Go back to Oldale Town, and heal your Pokemon if necessary. Your rival is now at the southern end of the city. Talk to her, and she'll go back to the Little Root Town. Well, to be back you will also need to go back to your new hometown. Go south of the city, and go into the great laboratory of the professor. Your contestant is there and so is the professor. Talk to the professor and he'll give you PokeDex and your contestant will give you five PokeBalls. After talking to your competitor again, go out. There, your mom gives you Running Shoes. Holding down B, pressing the arrow button, you can run. After that, you have the right to go explore the world of Hoenn! Route 102 You are now officially starting your tour of the world of Hoenn! Go back to the city of Oldales, stock up on some supplies, and go west from there. You're going to be on route 102. You will be your first coach in battle (aside from fighting with your competitors) here. While you're at it, you'll get a look at the new Berry trees, seen on the left. South of the route, you'll also find Itemball with a potion inside. Crush all the coaches, get some levels, catch some Pokemon, and faster than you think you'll be at Petalburg City. <Previous next=>> Page 5 Mauville: City's third gym When you arrive in Mauville City, the first thing you want to do is get yourself a free Bike. Go into the house to the right of the Pokemon center, and you will get one there, talking to the person shown in the screenshot. There are two bikes, Mach and Acro. Choose what you like after listening to the following explanation. Mach Bike has good speed, but Acro Bike can do a lot of tricks. To learn more about them, read their manual on the screen with a bike, you will be able to move as much</Previous > </Previous > > although running shoes are already pretty fast. If you ever want to switch bikes, come back to talk to him. With your new Bike, you can now go on a bike along Seaside Cycling Road. Also, the person in the house to the right of the Mart will give you a substantial item, HM06 - Rock Smash. Teach it to one of your Pokemon, although you can't use it until after you get your third badge. Game Corner Mauville City is a Game Corner to play slot machines, but you need to get a Coin Case. Make sure you harbor mail, and talk to the girl in the house at Game Corner. She'll give you a coin case for the port post. Now you can go into Game Corner for a while! Slot machines are quite exciting. You can insert one, two or three coins. You get coins to match three of the same type either horizontally, diagonally, or both. Here are two roulette tables: one with a minimum bet of one coin and the other three coins. On both screens, a screen with four boxes will appear. Each row has four Pokemon (Wynaut, Azurill, Skitty, and Makuhita) with three colors (orange, green, and purple). Betting in one box will give you 12X but the amount of the whole row will give you 3X but the amount and vetical line will give you a 4X bet amount. Mauville Gym: Shocking, isn't it? Mauville Gym has two people in front, one of them blocking the entrance. He's Wally, and he wants you to fight. He's terribly weak because he only has one. After beating him, the two go away and you are free to enter the gym! It's an electric gym, so it's prepared with some anti-electric Pokemon. There are four trainers waiting to shock you, but show them that a little shock can't hurt the humble Pokemon Trainer like you. There's nothing to worry about for the electricity wall. Just step on the lightning bolts, and the walls will move to different places so you can get through. Watson is a sports manager. He has lv. 22 Magnemite, which is part Electric and part Steel type. He also has lv. 20 Voltorb, and lv. 23 Magnetron. Magnetron is the strongest Pokemon on the old man's team. Emerald in Watson is an additional en. For the winner, you'll get dynamo badge and TM34 - Shock Wave. The badge gives you the ability to use Rock Smash out of battle, and will increase the speed of your Pokemon. After you're on what you've come here, you can go west on route 117. Route 117 At the very beginning of Route 117 is the Day Care Centre. If desired, you can go to the center and leave up to two Pokemon with the old ladies. Leaving your Pokemon there, they'll raise the level automatically. The lower the level of Pokemon, the faster the level will get, as Pokemon get level, it is possible that a new step will be learned and will be deleted. Of course, money is involved. Whenever you want to pick up your Pokemon, the old lady charges \$100 for each level gained. After leaving the Pokemon day care center, you can move on. Route 117 is quite straight forward and short; just keep going west. Most people here are pacing around. On this route, you can have a two-on-two battle with two girls standing at the Berry trees. Real soon, you'll arrive in Verdanturf Town. Page 6 Hot Springs Lavaridge Town is a small but cool place. You can go to the Pokemon center and go through the back door to enjoy a dip in the hot spring. Outside, people are buried in hot sand. The old lady above the old man will give you an egg containing Wynaut. There is a shop next to the gym. Go inside and talk to the old man wearing purple. He'll give you charcoal. After that, go to the gym. Hole Here and Hole There Lavaridge Gym is full of little hot spring holes. What you need to do is go through all the holes and try to end up with a sports manager that might be frustrating to do. It's something like Sabrina's sport in previous games, except this time, if you go up the wrong hole, you need to face a coach. Follow the steps below only if you don't want to battle any coaches. In the first room, the pool on the left goes to the next area. In the next area go into just another pool. Then enter the pool in the upper left corner. Go to the only other pool. Then go to the pool to the left, then to the upper-right side. After that, take only another pool, and then the lower right. Go down to one pool, and finally you meet the sports leader. Note that emerald, the layout is slightly different from what is described here. The sports manager is Flannery. She, like everyone else in the gym, uses Fire Pokemon. She has two Slugma, and one hot Torkoal! In Emerald, she is one numel, one for Slugma, one for Camerupt, and Foorkoal. After you defeat her, she'll give you a TM50 - Overheat and Heat Badge. Now all Pokemon up to level 50 will obey you, and strength is allowed out of battle. Once you get out of the gym, your contestant will talk to you and you go-goggles. With these goggles, you'll be able to get through the deserts without any problems. Fossil finding before you do anything else, goes deep into the desert, and I mean all the way north. There you'll find two fossils. One is roof fossil, and the other is Claw Fossil. You can choose only one, because the other will sink back into the sand. At the very south of this sand storm section, you will find the TM37 - Sandstorm. Petalburg City 2 Now it's time to go all the way back to Petalburg City to challenge your father to a sporting battle. During the trip, you're probably going to go through the Rusturf Tunnel again. Go west and south and you come to the place where he had lost his glasses. look at the and you will find a couple of Blackglasses. You will have to look hard because it is hidden. In your Father's Gym Finally, you've reached a sports manager, better known to yourself as a dad. For other people, he's Norman. Like the rest of the gym, he uses Normal Pokemon. He has lv. 28 Slaking, lv. 30 Vigoroth, and still slaking. This one, however, is lv. 31, and quite difficult to knock out. In Emerald, Norman is lv. 27 Spinda, lv. 27 Vigoroth, and lv. 31 Slaking. After you defeat him, he will give you a TM42 - facade and Balance Badge. With this badge, all your Pokemon's defense will grow and you'll be able to use Surf out of battle. He also says Wally's parents want to see you. So now it's time to go to Wally's house, which is right next to the gym. Talk to your father and he'll give you HM03 - Surf. In the emerald house, you will automatically be taken to Wally's house. Now you can cross the oceans without a boat! New Mauville Now you have to go east and travel all the way to Mauville City! Talk to the sports leader, and he'll give you a basement key. He needs you to go to Newmuuu to turn off the generator. New Mauville is based at a power plant in Hoenn. This place is a short Surf away from Route 110. So now get into the water, and head east. Soon you will reach the island with a cave. Go there, and you'll be in New Mauville. Use the cellar key to open the door. Once you get inside, step on the blue switch so that the other door can be opened. After that, you will need to step on many switches to get through. When you finally get to the Generator, just step on the red shutter and it'll turn off. Nearby Generator is Thunderstone! Now go back to talk to the sports leader. He'll give you a TM24 - Thunderbolt your trouble. Location (New Mauville) Electrode Magnemite Magnetron Voltorb Route 118 and 119 When you get route 118, surf east to get to the next city. You will reach the beach and you will meet these two interviews again. You can battle them if you want. Keep on your feet, and Steven will pop in to talk to you. His short conversations with you won't affect you in any way, though. Now you need to go north to route 119. Here you will find a lot of long grasses that you can not get through the bike. You will find a lot of trainers hidden here looking for Bug Pokemon. The screen shot on the left shows a hidden item that can be found. Right when you get out of the high grasses, surf on the plot to the left to find the zinc. Continue north, and soon you will reach the weather institute, closely guarded by Team M / A. Go into the building and go upstairs. As you do this, you will be fighting a lot of Team M/A members. The final battle is with admin from the team. After you beat her, the scientist will come to talk to you and you get a Pokemon called Castform. This Pokemon is special because if it rains it changes your physical appearance. It's holding Mystic Water, too. Now you can go away and move on. Another fight with your opponent will walk a little, and your rival will come to battle you. Her Pokemon is not completely tough to beat at all. For beating her, she'll give you one of the best HMs in the world of Pokemon: HM02 - Fly. Teach it to one of your Pokemon and they can fly to any city that you have had before. It definitely saves a lot of walking or cycling. But before you can use this, you have to get a badge from Fortree City, and that's where we're going to come in! Page 7 of The Treetop City Here in Fortree City, all live in a treehouse.
