Sam rayburn fishing report joe joslin

Joe Joslin writes columns for... Frequent Tournament Angler Outdoor Writer Fishing Seminars Licensed, Professional Guide Since 1998 Conducting for Toledo Bend Lake and Sam Rayburn Reservoir. Joe Joslin Outdoors Licensed Guide on Toledo Bend & Sam Rayburn Tournament Angler & Outdoor Media Member: Louisiana Outdoor Writers Assoc.& Southeastern Outdoor Press Assoc 160 Country Lane, DeRidder, LA 70634 Phone: (337) 463-3848 Email: Joe.JoslinOutdoors@yahoo.com Copyright © 2007 joe Joslin Outdoors, DeRidder, LA 70634 Toledo-Bend.com Web Design and Hello Hosting, fishing and outdoor addicts. The SRA (Sabine River Authority) says the lake level is 168 and both generators are closed without a generation schedule. In addition, on an emergency leak, all gates are closed. However, they will have to release some water for the industry below The Bend. The water temperatures are 66/69, which are perfect for wacky platforms, topwater and my favorite shallow running we crank bait Berkley Square Bull crankbait, which is formally a pit bull. This makes a tight wiggle and the bass can't seem to resist. Also, we're starting to use texas rigged bottom hopper in June bug, if it's clear we're going to color red bug. On our Texas platforms I like to have a 15/17 pound Trilene Fluorocarbon test and a 3/16 oz black sinker and a 3/0 wide gap hook version. We also continue to catch bass on carolina rig and jigging spoon. Let's talk first about Carolina Rig. On my CR I like 4 ft. a leader that I like to take out of my main line, which is a 17 pound Trilene Fluorocarbon 4/0 wide gap hook. On my CRs I like to use Baby Brush Hog in red watermelon and green pumpkin on my Bottom Hopper I also like to use green pumpkin. I fish my Carolina Rigs from 12 to 25 feet and drag it slowly. If I feel something, I will work even slower. On a jigging spoon we're fishing it deeper at 28 to 35 feet, so we need a heavier spoon that I use 3/4 ounces. I use chromium or burnt nickel. Chrome are the easiest, followed by gold and burnt nickel. CRAPPIE REPORTS I spoke with crappie guide Tater Reynolds. He and his co-worker caught 140 crappie last Saturday. In each pootoon there were 4, so not counting the guides there were 8 fishing. They are still at the bottom of a man made brushes at 20-25 feet. Mostly on shiners but a few on crappie contraption. 140 was one of the best numbers, but they were mostly crappie plates. Joe Joslin is a pro guide to both Toledo and Sam Rayburn and TPWD licensed guide since 1998. Contact him at joejoslinoutdoors@yahoo.com 337-463-3848/Cell 337-401-264. FISHIN' TOLEDO (23.07.2007) [Toledo Bend,LA] Full-time guide. Joe Joslin, reports on current fishing conditions on one of the country's top bass fishing holes. FISHIN'TOLEDO (24.05.2007) [Toledo Bend,LA] Summer patterns become the norm and we catch morre and more bass on the main points and ridges. However, we start shallow grass points with the best water baits and weight-free soft plastics. Full report below. Fishin'Toledo (5/13/2007) [Toledo Bend, TX] It was a great source on Toledo... water level remains good. Toledo Bend Reservoir Fishing Report (27.09.2006) [Toledo Bend, TX] Similarly many other fishing and sailors at the southern end of the Bend, I'm excited satisfied with the work currently being done on the starting site #7 located on the west side (Texas side) of Toledo just off Highway #255. This is a large project because the ramp is elongated thirty meters from the existing ramp / concrete. In addition to enlargement, the bay is also deepened, enlarged and deepened. Rayburn Giving 'em up to Joe Joslin (10/15/2012) With water temps in the mid-70s and good lake levels, Sam Rayburn has been much easier to fish and much more productive over the past 2-3 weeks and just better. Rayburn Bass Thaw by Joe Joslin (3/09/2010) Bass fishing has been difficult with water temps in the mid-40s throughout the winter, but things are improving and the bass is getting active. Closed are some designs that are putting some bass in rayburn boat very cold bass Joe Joslin (1/20/2010) We had one of the coldest winters in years and low water temperatures slowed the bass bite way down. A few bites, and things improve in warm weather. Christmas bass and Rayburn Joe Joslin (1/01/2010) Sam Rayburn is famous for producing big bass on cold days. This report contains some basic formulas for cold water rayburn bass. How to Get More Cold Water Bites by Joe Joslin (12/15/2009) Water temperatures are in the low 50s and fishing players need to make presentation adjustments and designs. This report contains some very specific presentations that currently catch bass on Rayburn. Rayburn Fishing Bigger These Days Joe Joslin (11/12/2009) Rayburn has been low for weeks, but no longer. Heavy rains moved 4-5 feet and changed patterns to some extent. This new water has moved part of the fishing population. BASS Central Open Pros move joe Joslin (27.08.2009) Rayburn is the venue for the next BASS Central Open scheduled for September 3,4,5. This report contains several patterns that will play a big role in this important bass event. BASS Central Open hits Sam Rayburn Joe Joslin (22.08.2009) Almost always active Big Sam will be even busier as B.A.S.S.S. Central Opens back to Sam Rayburn in the first week of September. In my opinion, it will take an average of 16 to 18 pounds a day to win. South Rayburn 12 months a year Joe Joslin (8/05/2009) Rayburn is an amazing lake with lots of fishing pressure, but thanks to its 80% catch and release, it remains an amazing place to fish..... combined with excellent submerged grass. Mid-July On Big Sam Joe Joslin (16.07.2009) Featureurs a few fish catching patterns to order a summer bass at Rayburn. The work of the main humps of the lake and points is definitely to suggest the quality of the bass. Consisten Summer Patterns on Sam Rayburn Joe Joslin (7/11/2009) Some southern lakes die (slow down) during the summer months, but not Big Sam. It's hot now, but fishing is still good. Get a large hat, sun visor, Gator Aid and water and fish both on the edge of the grass and on deep and humps Top Water Bite is on! Joe Joslin (7/02/2009) Good quality bass numbers have moved into the submerged Rayburn grass and frogs and buzz lures are getting some og to show them off. Get on.
