CCPAAbout search resultsAbout search resultsYP - Real Yellow PagesSM - helps you find the right local businesses to meet your specific needs. Search results are sorted by a combination of factors to give you a set of options in response to your search criteria. These factors are similar to those you might use to determine which business to choose from a local Yellow Pages Guide, including proximity to the search location, expertise in the specific services or products you need, and comprehensive business information to help assess your business's suitability for you. Preferred listings, or those with selected site buttons, point to YP advertisers providing information directly about their businesses to help consumers make more informed buying decisions. YP publishers who get a higher position in the default order of search results may appear in sponsored listings at the top, side, or bottom of the search results page.
