[3] Blur[edit] when the supernatural nations meet to negotiate an end to the ongoing hostilities, Harry Dresden, Chicago's only professional magician, joins the White House security team to make sure the talks remain civil. But can it succeed, when dark political manipulations threaten Chicago's very existence -- and all that he is proud of? The plot [editing source] tomor has called the Peace Summit in Chicago, hosted by Baron Marconi. Ebonyar McCoy and Margaret Angelica Dresden meet for the first time. Thomas Wraith is imprisoned by Svartalf for the attempted assassination of Etre, apparently in an assassination attempt. Austray was killed in the incident. This may refer to Ellen Mallory as starburn too. Harry Dresden and Ebenzar McCoy were attacked by strangers and chased in a parking garage. Harry Dresden uses a new wave that amplifies a birthday song for De Peters in 140 decibels, amazing monsters and allowing McCoy to destroy them. Ebinazar McCoy learns Thomas Wraith is the other child Of Margaret Lovai. Ostre is a security guard at the Embassy in Chicago. Ivana is a high-ranking embassy, and Ireys's sister. Fredis is Valkyrie in hiring Lara Wraith, sister of Sigrun Gard. Carter is the head of the Lachaz clan. The fanatical people of the jungle, who sew the course of war, carry human beings in contempt. After the events of the skin game and jury duty, Harry Dresden finished settling in Molly's apartment and has a relatively stable life for himself and his daughter. One day, while on the run with Dresden, Thomas Wraith reveals to him that Justin is pregnant. Furthermore, Carlos Ramirez arrives soon to inform him of his future mission to defend senior Council members while attending the peace talks; Worse still, the White House will soon vote on whether to expel Dresden himself, which he cannot easily contest because of his duties in securing the Supreme Council, and his supporters in the Council cannot help him block a broader vote, because they are also in peace talks. Things stack up against Dresden as well when he comes into serious conflict with his grandfather, Blackstaff McCoy, on his decision to link up with the White Court and keep his daughter close to him. Worse, during his visit to Karen Murphy, who is still recovering from her injuries, Rudolph's investigators Bradley arrives at her home for questioning both in relation to the events of the skin game. It is the death of Harvey Morrison and the death of some security in the theft of the Capristo building. They think they can convict Dresden and Murphy, but they refuse to cooperate, and have sex after they leave. The next morning, things still didn't give up on Dresden finding Lara Wraith and Mab sitting in the back of his car: Dresden is now paying off any favors to Lara Wishes, on behalf of winter. When Dresden finally does not return to the Embassy of Svartalf, he finds it on fire, with Maggie inside. In the wake of what was apparently an explosive assassination attempt by Thomas Wraith against Etri, Dresden managed at length by getting Molly's apartment and securing his daughter Andnber Hope Carpenter, her babysitter. However, it cannot secure Thomas, who was arrested after the assassination attempt and made incapacitated, barely able to convince Dresden to check on Justin. He takes his daughter to a shelter in Carpenter's house, which is protected by the guardian of angels and unseen guardians. He assured his daughter that if he died, they would help: the Carpenter family would take care of her; He finds nothing, but does not encounter Ebenezar. The two almost come to blows again, but stopped by the arrival of The Cornerhounds Houns, forcing them to work together. Ebenezar reveals to Dresden that, as Starburn, he can exile strangers directly without suffering any permanent damage to his mind, so trap Cornerhounds in a circle of fire and send them back abroad. Although they are successful and barely survive, they are part on poor terms. He gets medical help from Waldo Butters afterwards, learns that he is in a threesome relationship with Andy McLean and Marcy, then goes to Wraith to get answers from Lara. Dresden gains acceptance with some difficulty, meet Fredis Gard. Lara Valkyrie's new keeper from Monok Securities. He sparred with Lara while brainstorming ways to free other than their brother, and find nothing, he leaves. However, while he is left accosted by guards Ramirez, Yoshimo, Myers, and Chandler, for fear that he might be vandalized by a white court. They force him to undergo yoshimo's examination, and to discover that he recently had sex (with Murphy, but they couldn't figure out) increased their suspicions, especially because Dresden refused to reveal his own life to them. However, they allowed him to leave. ridden by enemies on all sides and paranoid, Dresden then call Molly That the mantle of power has essentially intertwined with it so that it can be summoned - and cannot cross a closed circle, as the mortals can. He strikes a deal with her: he will become indebted to her as a faerie, she will create a defensive silk suit and ring that will allow him to drop consciousness in the construction of ectoplasmic, an identical trap of himself. After dropping Molly off, Dresden spends a night in Carpenter, promising Michael Carpenter to get Molly to reveal her new status as a winter lady to her parents. As Goodman hires Gray to protect Justin, he discovers with Waldo Butters that Vidjakius will now only cut off non-humans, and then goes to the first meeting of the Peace Summit at the Bright Future Society Castle. The peace talks themselves included all the usual suspects in the unseen agreements, including even Donar Vadong and Ferrofax Dragons. He managed to eliminate one of his two favors that Lara Wraith must repay by introducing her to Gregory Christos and Etre, to help ease tensions. Then he meets the shoulders of the river, learns from him that Genoskwa is still alive somehow and free of Hadis, then goes on molly's order to freeze his master who mentally assaulted Yoshimo, and after this point Sidhe is molly's exile. Dresden manages to convince Molly to reveal herself to her parents during the uproar, then leaves with Lara afterwards, who now has a plan to save Thomas - Lara's second fit will be for Dresden to help her. With Thomas being transferred from Svartalf Nursery to Marconi, Lara's only franchise can be obtained from Ireys. Murphy decides she will help Dresden despite her injuries and his protests, and cut her way out of the cast to do so. They go to Lara Raith to plan, but followed by three cars, so Murphy has dresden speed away while under the veil - a veil not strong enough to block the radar. The police see speed on the radar but only see followers, and arrest them, although one managed to escape. The final follower catches up with Dresden and reveals himself as Gray Goodman, reporting a number of watch crews watching Justin. Gray then leaves and she arrives at the Wraith estate, with Friggs quite impressed by Murphy's ferocity and offered to have a trilogy with her and Dresden. After Murphy retreats, she continues lara wraith, who is out to avoid the glitch in her office. There, Dresden proposes to extract Thomas by stealth, and take him to a place where none of the masked states, not even the White House, can reach him - Demonreach. With he gone, Sartalves will have no choice but to accept Warigold sharply. The plan was put into effect the following night as Dresden and Carlos entered, Dresden broke Ampoule from the liquid on Carlos' cloak to mark it with a spell. Then he danced briefly with Freydis until she staged a slap room, pretending revenge for sexual assault. Mapp then pretends to send him after, lara, to make supposed compensation and allow Lara to gain influence over Dresden. In fact, everyone left clear of the party long enough for Fredis to call the illusion of Dresden and Lara having sex (something that can't actually happen, because of Dresden's love and protection from Murphy), while Lara and Dresden really slip through the waterfall of clothes down to the subbasement to retrieve Thomas. Lara distracts einherjaren guard while Dresden does it, but Thomas is in a state of near death, his hunger is completely exhausted and now feeding on the power of his own life. I have stood by doing anything for a long time in my life. I saw the holy place after the holy place fell on humans. Forest after forest. Sea after sea. they dare to walk where they were not supposed to walk. As they do, divine retreats, dangling, die. Grow more numerous, more trivial, more ferocious, while they foul the world helped us to create with their filth, noise, buildings, and machines. This ends tonight.— Ethniu then leaves under the protection of the Dresden blinding dose. Alone she could not succeed, but Dresden energizes Carlos' cloak of misspelling, causing him to fly around (pulling Carlos with her) and distracting everyone enough to succeed - mostly. He saw two people through it, Ferroviak and Vaderung, but Vedrong prevented Ferroviak from revealing their location long enough for all of them to get to Murphy's escape car. Before leaving, they witness the arrival of the listening, King Corp. and Etheno as they kill all of the mortal guards outside the castle. They pass inside the Bright Future Society Castle, killing human escorts as they go, with Dresden staying to testify while Murphy and everyone flee towards Demonreach. Dresden witnesses Ethniu, the last Titans, hit The Mapp with ease and then declare war on Chicago and any states by agreement who are trying to stop it. This coincides with a violent attack on the outer gates. In the wake of EtHeño's departure, leaving no authority to the city, Marconi mobilizes the states to defend it even in Dresden, which runs for anchors. He arrives just in time to prevent Blackstaff McCoy from burning the water beetle, as he was under the impression that Lara had vandalized Dresden. Before Ebenezar can bear down on everyone on his flying rock, Dresden sends consciousness in the building of Molly ectoplasmic, steps forward before Ebenezar. Two duels, Ebenezar win, so Dresden reveals that Thomas is his grandson in order to distract him. This angers Ebenezar, but before he can blow the comet out of the fire in the fleeing water beetle, Dresden jumps into Ebenezar and takes the shot instead, terrified, Ebenezar carries Dresden's body long enough to let the water out of range, in Dresden point releases the building, causing his body to dock to dissolve in ectoplasm as he returns to his body on a water beetle. Murphy makes Dresden promise to talk to Ebenezar afterwards, then arrive at Demonreach. Lara used her own reserves to keep Thomas alive during the trip, so Dresden brings Thomas to Demonreach, where he puts it in the well below, keeping him protected from hunger while in prison. Lara misunderstands this and attacks Dresden, but he disrupts her and Fredes, at which point she accuses Dresden of holding Thomas hostage. Dresden disowns doing so and they come to a mutual agreement to fight Ethniu, with Demonreach revealing that ethniu could trap in the well below - if it is brought to the shores of Lake Michigan, Dresden uses Athame from the armory. Dresden and his companions then return to Chicago to defend against the invasion of Fomor and the Good Gods.
