It also has a house on my office desk. A very easy-to-use reference guide, especially when I need to find something quickly when writing notes and reports or blogging. I used this book a second time in one of my freshman composition classes. This is one of the easiest 111 read textbooks I've come across so far – like a handbook with no grammar instructions. The chapter on APA references is remarkable and the section on rhetorical situations is clear and concise. Because it is relatively light on reading, it is best that the teacher emphasizes the format of the class writing workshop. The reading has indeed provided a useful example of a novice expert and writing. I used this book a second time in one of my freshman composition classes.
