Timex field watch white face

3.9 x 3.9 x 2 inches. 2.72 oz 75304864222205 079531834293 753048442224 7015702722322001236222262 62222222115773 75330484431182 Looks like a casual watch, but the full-size Timex Men's T40051 Expedition Metal Field Brown Leather Strap Watch adds a stylish yet sturdy complement to your daily wear. It features a large, round silver tone brass watch case with a flattened, brushed bezel framed olive green dial background with Arabic numerals, inset 24-hour notation, large, bright stick hand (with second hand), date display at 3 o'clock. Quick date function allows you to set the date of the watch without rotating the crown every 24 hours. Just pull the stem out on the way and turn until you reach the desired date. It also offers 8 years of battery life, water resistance to 165 feet (50 meters) and an authentic leather strap that is durable. Indiglo Luminous illuminates the surface of the watch dial uniformly using patented blue electroluminescent lighting technology. It has less battery power than most other clock lighting systems, and the watch battery lasts longer. Top Reviews Recent Top Reviews The history of field watches, with traditional purposes for fighting, go back many years. They have evolved in style over time, but field watches always remain sturdy and reliable. Usually, a good field watch has a stainless steel case, canvas or leather band, quality movement. Glare proof crystals, high contrast dials, luminescent hands, large numbers should be easy to read. Among other things, field watches are built to withstand tough conditions. With its modern design and new features, today's field watches take many forms. From rough to military-inspired watches, we've turned up the best field watches built to last. 1.
