Jackie I., Phoenix, AZ I took every single one of these tests for my state except marathon one, and I passed my test first attempt! I highly recommend this website to anyone who takes a permit test. The questions I missed were rules and regulations stuff, so I would have studied the harder ones given the chance, but still. The actual test had similar and sometimes exactly the same questions, so be sure to use this site for study!. Kimmee B., Tucson, AZ This site is amazing! I read through the book, then took every training test for my condition on this website, and passed it with 98%. Practice test questions are almost identical to those on the actual test, and if you pass, you will definitely pass the actual test. It was that simple! I'll be sure to recommend it to any of my friends who are trying to get their permission tests because this site helps! Casey P., Mesa, Arizona This site is so awesome...! I read the manual twice ... and practiced all the questions on this site and I approved the exam with 90%. Thank you very much for your help. Krishna S., Chandler, AZ I'm a retired veterinarian and I work as a fleet manager for a small company. I decided to get my CDL. I tried several online tests after fumbling through a study guide not knowing what to study. When I found these tests for free I thought I was ready for the test, but I failed several times. So I kept taking tests until I passed them all with only missing 4 or less on each. So I tested today and passed class A for the first time missing only 8 for all three Tests. This is the best out there! Alford G., Scottsdale, AZ I failed the permit test twice! Then I used this website and I only missed three! This site saved my life! Mia B, Arizona For the first time with my permit test only with manuals, I failed after 20 questions to the test. When I found this website and started taking practice tests, everything started to come together. I tested again after a week doing practice tests here and got 100%! Nicholas Heim, Arizona The free permit test that this website offers has helped me be more prepared and focused. The practice test offers questions that are very similar to the actual test, and gets you comfortable in a test scenario. When I first went to D.M.V, I didn't pass. So I studied more. I re-read the manual and my notes, and made flashcards. Then I would take all the free training tests a few times. I went back to D.M.V. and passed the permit test! Nikki A., Arizona My parents didn't want to pay for instructional brochures, so I asked my friends what they did to prepare and recommend these tests. I used these tests for for permission and passed with 86 at the first attempt! I took all the tests 1-2 times as well as the marathon test at the end. Most of the questions were from these practice trials and the others were common sense. Thanks! Kat Baker, Arizona I was incredibly worried about the written test.. I read through the manual once, but it wasn't enough, so I googled how I could be ready, and this page came up. I found the questions incredibly simple and self-explaining, and after taking about 6 tests, I felt I was ready. When it came time to test for real, I sat down at the computer and was surprised that the answers all came so easily to me! Thank you guys so much! Zack Hansen, Arizonal took all the training tests on this site and got 98% of the DMV test! Alyssa Blakley, Arizona This site really helped! I'd definitely use it and take all the tests - which I did and I switched to my first try! Also use a book that you can get from the DMV. And make sure you take the marathon test as the night before the actual test! Tori Luckey, Arizona I got a permit on Friday! It was my third attempt, I highly recommend using it a few months before taking. I read through the manual, but this site is what really helped. Lara Pacis, ArizonaHej boys; took my permit test on Friday and yes!!!!!! I passed; its no lie honestly this site has helped me a lot. Like everyone else I took tests over and over and over again until I was hitting the 90s. I highly recommend first reading the book then taking all the exercise tests over and over again. The only question I found another was one on fines, which I think the site should update; otherwise all the questions that I read came from this page. Most of the questions were centered on situations along the way, a few on signs and others on fines. Thank you guys for this site I'll give you a thumbs up!!! Carole Woodley, Arizonal found this website by accident :) and 9 tests. I failed 2 and read my guide. I went and did a test today and passed! The questions were very similar. Thanks! Terri Wright, AZ I only had one day to study for a permit test after being loaded with a night full of homework honors from school. So I found this site and took tests 1-6 until I passed all of them then took the marathon test until I passed it 100% and went to sleep to wake up to the test. My brother (twin) did not use this site and failed the test with the same study time as me when I passed it just missing 2 questions. These tests really work! Especially in Arizona, the questions are literally the same! Kristen Rowland, AZ This website has helped me so much! It's absolutely fantastic and really helps you with knowing the rules of the road. I have taken each test more than once, including the marathon! I was so nervous for my test, but as soon as I sat down to the computer and it was so easy! As soon as I got out, my mother feared that I had failed because of how fast I was! Lol. I only missed one question and I'm so glad I finally got permission to :) I got it yesterday! These tests have passages from the driver's manual literally. My mother and I have recommended this website to our friends. 5 stars for sure. One day I was driving a car for the first time, a week later I got :)Imani Cooper, ArizonaThis tests are excellent preparatory materials. It was hard to read all the materials even though I did complete the reading. It was only after taking the training tests that I became comfortable. Practice tests on this website are a little harder than the actual test. After I took 5 training tests I was very confident. I passed the test with only one wrong question. It was simple, 'hand signal for a stopwatch', - I don't know how I got it wrong. During the test I had no questions about the fines, which are the hardest. Just doing basic practice tests would be more than enough to pass the test. Do these exercise tests - this is the easiest way to pass the tests in my opinion. Hemanth K, Arizona Today I approved a written exam with only made one mistake, thanks to these practice exams. Well done, just keep going. Sankar A, Arizona After reading the entire test book, I took one training test per day (5 in total) from DRIVING-TESTS.org and passed mine for the first time! This website has helped me so much!
