The journey lasted six months and took them thousands of miles, all the way from Argentina to Venezuela. On the way, there were disasters and discoveries, high drama, comedy, fights, parties and very serious drinking. They met an extraordinary variety of people: native Indians and copper miners, lepers, police, drifters and tourists. They became illegals, firefighters and football coaches, and joined in a strike. Sometimes they fell in love and often fell off the bike. They both kept the diaries. One of them is a tall and good-looking medical student called Ernest Guevara de la Serna. Using the standard Argentinian moniker, others sometimes turn to the two companions, such as Big Four and Little Four. In Ernesto's case, the nickname got stuck. In ten years, the whole world will know That Guevara. This is the story of this remarkable journey, eight years before the Cuban Revolution, in The Words of That, and illustrated with contemporary photographs. For That it was a formative experience, and among the humor and pathos of the fairy tale, there are examples of his idealism and his solidarity with the poor and the oppressed. But this is far from a diary of the militant, and sometimes very far away, that politically correct, which may be why the manuscript is only available now, a quarter of a century after Ches's death in the Bolivian jungle. Instead, it's a record driven by a lush, intelligent and observant 23-year-old describing what the adventure of his life might be like - if his life hadn't turned into a much bigger adventure. Motorcycle diaries are memoirs that trace the early journeys of Marxist revolutionary Ernesto Che Guevara, then a 23-year-old medical student, and his friend Alberto Granada, a 29-year-old biochemist. Leaving Buenos Aires, Argentina, in January 1952 on the back of the sprayed 1939 Norton 500cc single cylinder called La Poderosis (The Mighty One), they wanted to explore South America, they knew only from books. During the formative odyssey, Guevara transformed himself by witnessing the social injustices of exploited mini-workers, persecuted communists, freaks and the fragmented descendants of the once great Inkawa civilization. With the end of the journey, they travel for a symbolic nine months by motorcycle, steamer, raft, horse, bus and hitchhiking, covering more than 8,000 kilometers (50,000m) through places such as the Andes, the Atacama Desert and the Amazon River Basin. The book ends with a declaration by Guevara, born into a middle-class family, showing his willingness to fight and die for the cause of the poor, and his dream of united in Latin America.
