However, while the chances of haircuts for men may seem endless, it is inevitable that the most fashionable men will eventually run out of inspiration. If the time has come to consider other hairstyles, you may want to turn your attention to the possibility of sporting a male ponytail. The male ponytail is ubiquitous in many ways. In recent decades, it has brought with it many stereotypes from biker to hippy. Adopting the ponytail lifestyle may seem fair from the 80s or 90s at first, the truth is that there are many men out there who have been giving the ponytail a modern call. Here is a selection of some of the best ponytail styles for men, whether you are a long-time ponytail user who is looking for a new reim imagination of an old hairstyle or someone who is on the fence about adding this choice to your overall aesthetic. 1. Man Bun Ponytail Hairstyles Source: @longhairguysz via Instagram More likely than not, when you think of a men's ponytail you are more likely to imagine a small bun on top of your head, also affectionately ride the waves, but you'll certainly be fooling everyone with your hair in a sleek bun. 2. Horsetail hairstyles for men with terrors Source: @fadesbymase via Instagram Source: @chrisdeloatchofficial via Instagram We love the way fears make hair manageable, but sometimes even this hassle-free style can use a little pull back. The good news is that fears make a big ponytail, especially if you have medium long fears. Low ponytails and high ponytails look equally good: the choice is yours and will probably depend on the length of your fears and how easy they are to fight. 3. Men's ponytail hairstyles for Curly Hair Source: @coachw8ts via Instagram Source: @ddma17 via Instagram Just because you have curly hair, doesn't mean you have to miss the fun of combing your hair on a ponytail. In fact, the options are even more fun for men who are lucky enough to have delicious locks. More notably, curly hair looks great when pulled into a messy bun, especially if you allow some individual curls to fall off. If a bun isn't your style, you can try pulling your hair into a low bun, as this also tends to work well for curls. 4. Top Knot Hairstyles for Men Source: @harrimomesso on Instagram We talked a little bit about men's buns, but where's the love for the top knot? Contrary to popular belief, this fashion style is not just for women. The upper knot is similar to the man's bun in that it is a bun formation, but differs in the amount of hair it uses. Unlike a normal man's bun, where every lock of your hair comes together, a top knot uses only part of your hair to create a bun on top of your head (hence its name). Strange in theory, perhaps, but in practice it is super popular and modern! 5. Whether or not you choose to create a low, medium or high ponytail will have a direct result in how your hair options are tied (expected pun) with your style as a whole. While a low or medium ponytail gives an atmosphere that is more relaxed, a high ponytail can be quite formal and business, so it is a good choice for a wedding or even a job interview. Men's ponytails with facial hair source: @bilz.khan via Instagram Source: @horatiouspinto via Instagram Source: @labrie_was_here via Instagram If you are a facial hair fan, then we ever have the ponytails for you. Although it can take a little more grooming and effort, it is possible to pair a ponytail with facial hair and have a result that is fashionable. One One which looks great with a beard is pulling back your hair into a half ponytail, especially if you have long hair. It also looks wonderful with shaved sides. Which brings us to our next option... 7. Men's Horse Tails with Shaved Sides Source: @beardlifeishard via Instagram Shaved side hairstyles have gained traction in recent years, and if you are a adopter of this flattering trend you will be happy to know that this hairstyle is more versatile than it may seem at first glance. In order to successfully achieve this aspect, you will need a good comb and a steady hand. By defining a bold part on both sides of the head, you can create an aspect that seems to take longer to assemble than it actually did. 8. Men's ponytails for short hair source: @losticon84 via Instagram One of the most popular misconceptions about men's ponytails is that they are a hairstyle reserved for long-haired adopters only. However, this could not be further from the truth! With a little creativity, short-haired males can also tilt the fingers of men's fingers or the waters of a man's ponytail. If your hair isn't long enough to pull on top of your head, opt for a low hanging ponytail. Pro tip: Sometimes shorter hair can be harder to get, and the type of hair tie you can wear can really make a difference. Opt for a stronger hair tie (think elastic covered in fabric instead of small elastic bands). 9. Male ponytail for longer hair ponytails for men with longer hair is where true fun begins! If this describes you, you can benefit from a wide range of ponytail styles, from a casual low suspension tie to a braid. We are also a big fan of half ponytail, where you leave most of your hair down and only ty a portion of it on top of your head. 10. Male ponytail for average hair length Source: @parturikampaamoerika via Instagram Source: @zacmanfitness via Instagram Wondering if you have medium, short, or long hair? Medium hair can most commonly be defined as hair that sits around the length of the shoulder. This is a great hair profile for the male ponytail, as it can be pulled from low or high ponytails. 11. Elegant Male Ponytails Source: @_the_doctor__46 via Instagram Source: @trends.geek via Instagram Elegant style is not reserved for short hair either! To achieve an elegant ponytail, it's about using the right product for your hair type. Great product is called pomade: if you're not familiar, it's a kind of waxy-style product that results in an elegant and bright Hollywood. 12. Men's ponytails with Pompadours Source: @hairstyles_byarnold via Instagram Source: @juan.leoncanton via Instagram Source: @swagberryvia via Instagram Are you divided between adopting a pompadour or a ponytail? The good news is you can have both. A pompadour is a popular hairstyle that generally refers to hair that is swept away and worn above the forehead. The pompadour ponytail stays true to the roots of this hairstyle by combing the hair so that it inflates above the forehead and then tying it in a clean loop. 13. Horse tails for underdogs Source: @ringowong22 via Instagram A underdog is a popular hairstyle where the sides and bottom of a man's head are cut closer to the skin than the top. Creating a ponytail with a socavón is simple, and can be conveniently done as a way to handle your hair when the top inevitably begins to grow longer than the sides of the head. Frequently Asked Questions about men's ponytails Can I use a regular rubber elastic band when using a ponytail? It may be tempting to reuse that rubber band from your last asparagus or broccoli haul. However, while we admire your dedication to reducing, reusing and recycling, it is not advisable. Rubber material tends to cling to your individual hairs and will result in painful pulls and pinches. It's much better to wear a hair tie that has a fabric cover. Is it true that using a ponytail can cause traction alopecia? Yes and no. Traction alopecia is characterized as hair loss that occurs as a result of a tight or high ponytail. As long as you're monitoring your hairline for signs of hair thinning or hair loss, it's safe to lift your hair as much as your heart's desire. Also, keep in mind that some hair loss or thinning can be a natural result of aging and not due to any style choices. Is a male ponytail a good choice for men with recoil hairlines? Men with a backline or hair thinning can face self-esteem challenges, but it doesn't really have to be. There are a multitude of hairstyle ideas for men who experience hair loss, including a ponytail. Even if you have naturally thin hair or are worried that you won't have enough hair, pulling your hair on a ponytail can give the illusion that your hair is fuller than it really is. The answer to this question will vary greatly depending on the individual, but the most common answer is no. If your shampoo and conditioner routine worked when you had shorter hair, it's likely to work for your long hair as well. But it's best to check with your stylist. Is there a specific hair type that works best for ponytails? No Men with thicker hair may be more likely to gravitate to a ponytail, as it makes their hair easier to handle and control. However, it can actually also be a surprisingly good choice for men with slimming hair - scroll to the bottom of this article if you want to read more about it. That. That.
