After GlobeX was defeated and their clones troopers' signal shut down, The Scientist who was originally allied with the military took over globex company and reprogrammed veterans from strike force heroes army: Jyn, Dex, Nathan and Tower, who were captured during the final battle of SFH 2, so they work for them. He somehow turned the signal that driven clones back again and created the army of clones that took over the world, promising his men that the world will burn, and only Strike Force Heroes will be to blame. Back at the SFH base in South America, Wesley, the only hero who was not caught by GlobeX, gets a warning about another clone attack, led by his former squadmates. He will then become head of the unit, replacing General West, who died in previous operations. He must recruit new soldiers to fight back and save the world from clone apocalypse. He then recruits Sanchez, Gunslinger, and continues to recruit until the SFH army grows enough to defeat the clones. Guys, this game is quite big, so leave time for it to load.
