Edited: Friday, October 27, 2017 at 10:42 AM Yes, you can tell us how we can improve this article. All our products make an unlimited airflow route with the use of intelligent space with an open atx setting by product sheets and manufacturers/manufacturers/rakoki/by-mix takes directly through the main ingredients from the front-end intake, ensuring the heat Meshify C has a remarkable compact effect with the support of components at the high end of a large tower, and with the ability to call seven fans and multi-radial ater liquid-cooling, it has the ability to meet. Newly designed Coni-Mesh front panels provide maximum air-intech two-pre-installed retail design dynamic X2 GP-12 120 mm fan with maximum airflow The low noise creates an undivided airflow path with open entrance setting to clean the back path on the front, on top, and full PUSU coverage and easy front access flexible storage Five drive full length power supply with room for options of the Kaffin Concalus Drive Cage and extra cable for unrestricted airflow and a clean search entrance up to 35 mm for clean cable route Space behind the motherboard plate with mated pass-thors, three-headed SSD mounting devices to hide with five storage devices with a side-by-side and moving drive cage Under the Back-to-Back Dedicated SSD. Strong steel drive company-dampaning rubber-gromats cushion hard drives with smooth, comfortable and reliable storage options with room for operation a remarkable compact for the performance and efficiency of a large tower in five trays Two-stage design dynamic X2 GP-12 fans come preinstalled for maximum airflow, less noise and 100,000 hours of life expected. Whatever your liquid-calling ambitions may be, Rocky can be with support for the CBD's Red-Etre 360 front and 240 mm up top open entrance setting makes an undivided airflow route from the front way to the largest exciting class GPUs The Sedest Drive Cage transfer or Longthast heavy duty areas can be moved or removed to fit Meshify C Glass's red case offers buyers good quality and improved liquid-colling support at a relatively average price. The elaborate design Meshify manages to provide the same excellent architectural quality that we have come to expect from the company's defined line-up. Together with the best of strong materials And an active approach means it is able to be part of the family. You can build a great deal in this case and the best part about it is the appropriate ventilation that we have seen in the most new cases, especially in the front of the case. Hockey Money is a solid entry into a coffee market, he said. An all black design combined with angry glass is certainly not enough to stand out from these days, and the furniture has not secured it as well as the interior design. Still, it's a view that works well, because we've been unable to find any important flaws. Front filter removal 3.5 or 2.5 drive capacity dedicated 2.5 drive capacity 2x USB 3.0, audio I/O, power button, then set button 3x 120 mm or 2x 140 mm (including 1x dynamic X2 GP 12) 1x 120 mm (1x dynamic X2 GM) down fan Top fans panel on both sides, SSD Bracket Motherboard Compatibility 120/240/360 mm, 140/280 mm 120/240 mm (Maximum Ally Height Motherboard 40 mm) 120 mm (Maximum 40 mm) 125 mm) 315 mm front fan installed case dimension with foot/protosans/screw package dimensions (LxWxH) meshify computer case detection box, top filter for bra The design model Mefalitepa C Product Computer Case Motherboard, 7350041084891, 4537694243254 Language English, French, Spanish, Swedish, Chinese PDF Form Factor Midi Tower Type P C-supported form factors atx 0817301014892, ITX, Micro ATX Expansion Slot 7 2.5 Sector 3 Number 5.25 Sector 0 Number 3.5 Sector 2 Side Window : Anti-Dust Filter : Maximum CPU Cooler Height 175mm More graphics card length 315mm max PSU length 175mm material-color black cable management : lead signal : Support power supply form factors atx power supply front fan support 140mm (زیاد) کی حمایت کی

Like the black diamond aspects, the Coreine incompatibility of the C-TG uniquely unique itself as a new force in high-airflow design. To offer a lighter source than Meshify C, The Maccoby-TG provides a clear view of the users within their case. Using intelligent space with an open atx setting makes an unlimited airflow route, the fish takes straight through the main components to the front-end to the attic, ensuring heat is not a problem. Meshify C-TG has a remarkable compact effect with the support of a large tower's high-end component, and with seven fan and multi-radial ater liquid-colling capability, it has the ability to meet. When performance is the top priority and compromise is not an option, you cover in style.
