Overview[edit | edit source] Depicted as two dogs howling around a pool on the moon, with a lobster in it, with two towers in the background, background, Moon Arcana is associated with creativity, inspiration, dreaming, madness, illusions, fear, fantasy, subconscious and trickery. In Tarot readings, it can also mean being unconsciously attuned to the world around you, gaining the ability to feel things without being told by them or without anyone else knowing it (meaning that some identify this Arcana with mental energy). Personas of the Moon Arcana are usually mythological figures that are directly associated with the moon, are mentally tuned figures, evil figures whose story includes betrayal or figures associated with illusion. They tend to focus on physical abilities while having average magical values. Characters who are from the moon Arcana are often similarly mentally tuned, but a more common trend is their projection of their own fears and mistakes on others (namely the protagonists). They often tend to have difficulty accepting themselves for what they are and trying to match an ideal person because of that fear. And like the Arcana, there is a hidden depth of why they act in their behavior. Appearances[edit | edit source] List of personas[edit | edit source] Megami Ibanroku Persona[edit | edit source] The protagonist can guarantee a fusion accident that leads to a Moon Arcana Persona by assuming a hard reset (as in, not already in the middle of the game and loading a save or return to title to title) and performing a white fusion after performing exactly 1.194 steps in an area , where no enemies will attack. , such as the Mikage Sun Mall. In addition, the protagonist must first upgrade his charm characteristics to a certain level before Nozomi becomes aware of the protagonist. The protagonist must then answer Nozomi's 3 questions correctly and Rancid Gravy or Odd Morsel give as he accepts his challenge to bring Nozomi something he had never done before. The social link can be initiated as soon as the protagonist visits the Strength Arcana Social Link to a sufficient level. In addition, the protagonist's courage must reach at least Lv. 3 in order to initiate the social link. In the events of the Moon Arcana Social Link, the protagonist helps Ai to confess her break-up with Kou Ichijo or Daisuke Nagase (depending on which team chooses the protagonist for the Strength Arcana Social Link) and then helps Ai to understand her conflicting feelings about her true self.
