All the reviews for Date I won Liz Claiborne in the early 90s from an American student who spent a few months with my family. He brought two of these triangular perfumes, blue and red (but the perfume was the same), and gave one to me and the other to my sister. Since she didn't like it, I used both mine and hers over many years. It was the first strongest perfume I had, compared to the colonies Apothecary and Smell Water that I earned. I remember it was a very cheerful and flashy floral, in the line of J'adore (saved proportions), and lasted on the skin much longer than my other jars. Did anyone else here have the perfume? I would be curious to know!
