LEARN MORE Mopar Performance bolt-on systems are designed to allow cooler outdoors to flow through a directional cone filter, directly into the intake... LEARN MORE Replacement cold air intake filter for use with: P/N 77060007, P/N 77060013AB, P/N 77060021, P/N 77060080 LEARN MORE One of the main parts of your vehicle is the engine. Regarding the human body, it functions much like the lungs. The engine must take in the air to create the combustion that produces your vehicle's painting and horsepower. Cold air intakes position the engine filter outside the engine compartment (usually in the upper wheel area or close to the fender). This allows cooler air to be sucked into the engine for combustion. Cooler air brings more oxygen into the combustion room, which translates into a larger horsepower and torque. Other benefits include greater fuel economy, but it will depend on your management style. Shop Genuine Mopar Cold Air Intakes at Affordable Prices Mopar cold air intake kits include all increasing hardware, as well as washable and reusable filters. These kits are compatible with selected model years of the Chrysler 300 and 200, as well as select model years of the Avenger, Dart, Magnum, and other Dodge models. AllMoparParts also carry cold air intake kits that are compatible with selected model years of the commander, Patriot, Compass, and other Jeep models, as well as select model years of the Ram 2500 and 1500. After that, these products are retail for less than the manufacturer's proposed retail price, which means you will enjoy large savings. By choosing to buy only OEM parts and accessories for your vehicle, you will enjoy products that have the correct specifications and meet the high standards set by the original manufacturer. OEM parts also fit your vehicle perfectly and are less likely to cause problems down the road. Product has been successfully added to your buy-in. x Our price is lower than the manufacturer's minimum advertised price. As a result, we can't show you the price in catalog or the product page.
