How to remove Google Galaxy J4 account, J4 Plus, J6 and J6 Plus #SEMPC using SM To help you learn more about this method, we take advantage of a message to your Galaxy phone, which is blocked in google account confirmation. From there, you can access the Internet and bypass the Google Account on your device. Let's start ignoring the Google Account on your Galaxy phone. To use this method, you need to prepare a few things first: Another Android smartphone to send a message to a Google device lockedY your galaxy device must be inserted a working SIM card. As this method does not require a PC, the steps may be different from the version of Android running on your Galaxy phone. Let's fit in with each of them. First, install the HushSMS.apk app on the phone that sends the message. After you do so, open it, press OK when you see the instructions and select WAP PUSH SLIn the first box, enter the SIM number that is inserted into the Galaxy phone (be sure to enter the area code (ACN) before the phone number). Second box, enter this URL: with / user / GoogleMobileThen tap Send WAP PUSH SL, wait a few minutes and your Samsung Galaxy phone will automatically open YouTubeTap Not now without updating, tap the three-point icon in the upper right corner and select Terms and privacy statement to open a browser. Now, ignoring the Google Account is much easier. Then enter this URL in the search browser: www.jfcell.net download and install Apex launcher 3.3.3 .apk. Be sure to enable the unknown sources option. Once done, open the app and now you're on the Home screen. Continue to open Chrome and download two files: Bypass_FRP 1.0.apk and bypass Android 8.apkSe to file app > Download folder and install Bypass Android 8.apk firstContinu to install Bypass_FRP 1.0.apk . Once you've done so, start it, and then tap a three-point and select the BrowseFrom login option there, enter any Google Account you remember the password. Once you're done, restart your Galaxy phone and you've managed to bypass your Google Account on your device. Repeat the steps above until you download Apex Launcher on your Galaxy Phone. Now go to Settings > Screen lock & Settings > Other security settings > Other security settings > Other security settings > Other security settings > Show system apps Then scroll down find a Google Account Manager, tap Storage, and delete your data. Then disable the applicationDo the same with Google Play Service opened and install the file FRP_JFcell.apk. Tap Finish when the installation is complete. Go to Settings > Account and add any Google Account you know. Then turn on Google Account Manager and Google Play Service and turn on Android Device Manager The last step is to restart your Galaxy phone. When your phone hardens, go to Settings > phone > tap Build number 7 to enable Developer Options. Finally, turn on OEM Unlock and reset the original device configuration. This is a completely new method to bypass the Google Account on your Galaxy phone. If you like this post, or if you are stuck at every step, we will know in the comment below.
