Accessories such as CDs, Write a review SKU (no review yet): 97807854354333 Provides children with all the concepts and skills needed to succeed in AGS Publishing and second year alage courses from Pearson Learning. Althes 2 is written for learners of all abilities and can be used as a 7th grade student as soon as possible. Although 2 describes several ways to solve quadration equations, such as factoring, rectangle completion, and graphing. This text also introduces trinouns and exponential functions (concepts that are important for real-world applications). Filled with full-color illustrations and entire examples, Al every 2 motivates your child to learn. Overall, this high-handed text makes it easier for you to engage students in ality. Now you can provide your child with tools and confidence to reach new levels of math and help algebra success! The AGS Math Bundle was compiled with home school students in mind and contains the same materials and content used in traditional public and private school classrooms. Student text provides a high-interest and approachable lesson that divides concepts into small, manageable sections. Many labs will help students learn how to apply key concepts, but step-by-step examples of problem resolution strategies will provide examples to follow. Chapter reviews provide an opportunity to check skills acquisition, and the skill review section at the back of the book summarizes the skills presented throughout the course. The Ality chapter introduces concepts such as location values, real and composite numbers, appropriate minutes, scientific notation, exponents, and square roots. 558 index page, hardcover.
