When it comes to revealing the Bible and teaching faithfully, John MacArthur is a name that many respect. He's been preaching at Grace Community Church and he's been directing Grace to you since 1969. During that time, he has written nearly 400 books and study guides published around the world. The reach of his service has enabled him to translate his ever-popular MacArthur studying career into at least eight different languages. To say that MacArthur is the name of the evangelical household is an understatement. Then, in addition to the studying nich, Dr. MacArthur is best known for his commentary on MacArthur's New Testament. The commentary series began 32 years ago (1983) when he published his comments on Hebrew. Since then, he has preached carefully through the New Testament in his church and written detailed verse comments about each Book of the New Testament. Today I want to show you how you can get an idea view of any part of the New Testament when studying in the Olive Tree Bible App. App. THIS COMMENT? One of the questions often asked when discussing comments is: Why should I buy a comment on ABC instead of XYZ? Here are a couple of reasons why the MacArthur New Testament comment is a valuable resource in your library. SINGULAR VOICE First, when you watch most modern comment series, each section is typically written by a different author. Although there may be a unique editor-in-chief, there may be differences in theology and understanding between the authors, causing a lack of consistency between volumes. In addition, sometimes the same author writes a commentary on a Bible book for different comment series. Douglas Moo, for example, has written a commentary on the Romans in both the New International Commentary and NIV Application Commentary series, as well as a commentary on James for the New Testament Pillar and Tyndale's New Testament comment series. MacArthur's New Testament narration has its unique voice. You won't face any problems you might find in other series. The fact that one writer writes the entire series provides a level of consistency between thought and teaching that may not be possible in other comment sets. Regardless of whether you agree with what is taught, at least you know it will be consistent throughout the series. BIBLICAL scholar AND PASTOR Second, John MacArthur is not only a Biblical scholar, he is also a pastor. This may not seem important, but it does mean that this comment has a different tone and approach than other series. It is one thing to write a commentary scientific world, but another to write to the general Christian population. MacArthur's comment is certainly part of the latter. His tone is pastoral and stays out of unnecessarily complicated. You have few or no questions afterwards, because every point is clearly explained. His example of the text also makes applying the text to your life easy. This makes it an easy comment, whether you're on a bench or in a pulpit. USING COMMENTS Like many resources in olive tree bible, the best way to get the most out of your library is to use the Resource Guide; MacArthur's New Testament comment is no exception. Let's say we start reading the Gospel of Mark and use MacArthur's comment as an assistant to our work. INTRODUCTION When you're doing research on a new Bible book, one of the first things you want to do is get some background information. The Resource Guide makes this easy. Just scroll down to the Demos section, where we'll find 5 hits in our comment. Here we find information about the gospel, its author, date, audience, purpose, and other things to keep in mind. OUTLINES Next, see outline to get a feel for how the book is set The resource guide shows us again that MacArthur has an outline for our book, and we see that it is quite extensive. One noteworthy thing is that the outline of the book also serves as a comment layout. This helps to see how a handful of the sats relate to their wider context. Personally, I often refer to contours throughout the study of the Bible book, because it keeps the big picture in sight.
